WORK EXPERIENCE

Workforce Analyst

Wisco Products | Dayton, OH | June 2021 – August 2021

- Responsible for developing and maintaining labor management tools to reduce attrition and better utilize head count. Primary responsibility for reducing discarded products due to quality inefficiencies. Increased productivity of the group by 6% and reduced inventory level by 14%.

Key Contributions:

- Developed working tools to evaluate and monitor entire labor force and associated processes
- Continuously presented manufacturing results to senior executives and developed process improvements to grow production
- Developed strategies, forecasts, and operating plans for sustainable operational growth
- Built strategic business relationships to initiate, maintain and grow partnerships

Financial Intern

Calibre Group LLC | Pittsburgh, Pennsylvania | June 2020 – August 2020

Developed comprehensive and detailed forecasts related to the Automotive industry to evaluate longevity of multiple brands.

Key Contributions:

- Analyzed revenue, production, growth and demand of top manufacturing companies and forecasted impacts and implications to steel suppliers
- Created spreadsheet models by utilizing the Microsoft Suite to showcase the results and present findings to the senior leadership team

RELEVANT EXPERIENCE

FYIC Client Challenge

Miami University | February 2019 – May 2019

Team leader in researching a niche community and developing a go to market strategy to effectively onboard a specific group.

Key Contributions:

- Collaborated with Fifth Third Bank to find more effective ways to research and identify potential clients
- Represented my group in presenting our findings to both peers and business professionals

EDUCATION

Bachelor of Science: Finance

Farmers School of Business, Miami University | Oxford, OH | 2018 - 2022
