With my teammates from the organization Hands on Atlanta, I volunteered in a different organization every Saturday as part of a program. Some of these organizations I helped include but is not limited to:

- Atlanta Community Food Bank: I examined the validity of food and filled food cartons (11) that were later redistributed to 14650 people in poverty in Atlanta, according to data from this organization.
- Medshare: I filled 34 boxes of baby clothes, girls, boys, baby under one year old and 5-year-old children in the Medshare warehouse, which were then redistributed to other agencies before arriving at the homes of the families concerned. According to Medshare data on the day of the event where I participated, more than 2300 mothers of families would have been helped.
