White Plains, New York

High School Diploma June 2019

I worked at Camp Ramaquois for the past two summers. My first summer I worked with 5 year old girls and this summer I worked with 6 year old girls. I have been told I have an amazing ability to connect with children. I strongly feel that children copy everything they see and hear, especially if it is someone they look up to. With the right guidance any child will believe how special they are and that they can do anything they put their mind to.
