SHEILA TRINH '23
BUSINESS ADMINISTRATION

I am the current President of UNG Enactus and was recently named to the President's List for achieving a 4.0 GPA. I have a heart for business, and I also have a heart for challenging myself and the status quo of society as a woman of color in business and STEM.

Being a first-generation Asian-American, I was raised under the disciplines of my heritage, while also being immersed in all of the opportunities my American dream has to offer. After graduation, I plan to seek a project manager or leadership position with a strong focus on business and mathematics/engineering. Thank you so much for believing in me and supporting me with your generous donation! Especially during these troubled times, this scholarship has provided me with security and reassurance that my work here at UNG is being noticed.

ERIC NABETH '22
THEATRE

I am studying Theatre with a focus on acting and vocal pedagogy, including singing. I was born in Paris, France in 2000. My mom is from Russia, and my dad is from France. I have lived in Duluth, Georgia since I was 2 and fell in love with theatre and music at a young age due to my family's musical background. My plans after graduation include working as an actor, either in the Atlanta or New York City area, while also teaching singing pedagogy on the side. **My overall goal is to consistently create great work in the theatre or film industry and move audiences to think in many ways and feel different emotions. Achieving that feeling is what makes the theatre special.** Thank you so much for the generous donation. Without generosity like this, I wouldn't be able to do what I love doing, and I definitely would not be getting the necessary training and experience needed to grow my skillset in order to succeed in this industry.

**CRIMINAL JUSTICE,
FORENSICS CONCENTRATION**

I am a Chaplain of Bravo company and a Team Leader in one of our platoons. I am also enlisted as a Military Police soldier for the 178th MP unit in the Georgia Army National Guard. I plan to commission in the Army National Guard for 6 years and then go active as a MP Officer. Eventually, I would like to move into CID, which is the Criminal Investigations Division, or become a Chaplain. I am grateful that you have chosen me to receive this scholarship. I never saw myself as being a great scholar until I attended UNG. I have been working hard to get great scores on all my assignments and assessments. I have had a good number of barriers to overcome – medical, financial, and other personal events. **When I learned that I received this scholarship, I literally cried happy tears.** I knew I was doing something right, and now I know to keep driving and to keep my head up. Thank you again so much for this scholarship award.

CYBER SECURITY**

I am involved all around campus in organizations like the Sigma Nu fraternity, Cyber Hawks, and the Cyber Unit. **After graduating, I plan to join the United States Air Force as a Cyber Operations Officer. I want to do this in order to serve and protect my country.** I feel like my cyber proficiency, plus my drive to succeed, will propel me forward in the military. The cyber field has always interested me because of how it constantly changes and grows. It almost requires that I change and grow with it. This keeps me on my toes, while letting me maintain a humble approach to the knowledge needed to succeed. With this scholarship, I plan to invest more into my cyber-related skills and opportunities. Thank you for opening a door to not only improve my cyber skills, but to also improve myself.

**OLIVIA SINQUEFIELD '22
ENGLISH**

I plan to obtain a teaching certification and to teach high school students. I would also love to coach softball for that same high school. I come from a loving family, where we were taught to treat everyone with the same respect that we would like to receive. I put my faith before anything else, and I take my academics very seriously. Softball is my escape from the world around me, and I love playing it. My career goal is to make an impact in a student's life. I want to teach students to be okay with who they are. I believe high school is a time that applies a lot of pressure on students. **As a teacher I will strive to impact students' lives positively and to be someone that helps them get through those tough times, while receiving a valuable education.** Thank you so much for your donation. It has helped tremendously and is a large part of my success at North Georgia.

**RYAN GIORDANO '21
NURSING**

Outside of class I enjoy reading, watching new shows with my friends, and baking with my girlfriend. After graduation, I intend to apply to my hospital of choice for employment, however I'm still undecided on which one I'll choose. I eventually wish to obtain my doctorate and become a nurse anesthetist. **I come from a pretty big family, and I am blessed to be the first in my family to graduate college.** Everyone is really excited. Thank you for awarding me this scholarship! It eases the financial burden on my family, enabling me to worry less and do so much better in my classes.
