 Hallandale, FL. 33009  
 PHONE: (305)803-7438.  
 E-MAIL: [ibis.verson@gmail.com](mailto:ibis.verson@gmail.com)

### Objective:

---

To obtain a challenging position in which I can apply my analytical, programming and interpersonal skills in the design and development of software systems.

### Programming Skills:

---

- **Main Language Skills:** dotNet, some dotNet Core, Rest Services (Web Api), Angular2+, Azure Resources, C#, Java, some C++, JavaScript, Typescript, SQL, J2EE, JSP, Servlets, PeopleSoft
- **IDEs/Developer Tools:** MS Visual Studio 2019, IntelliJ products, JCreator, Eclipse, Slick Editor, MySQL Query Browser, SQL Server Management Studio, PeopleSoft 9.0 with PeopleTools 8.51.05 and Oracle 11g
- **Databases:** Microsoft SQL Server 2017, mySQL, MS-Access, PosgreSQL, Oracle 11g
- **Version Control/ Application Change Management Tools:** Git, TFS, SVN, ClearCase, CVS, Phire

### Work Experience:

---

*July/2018-Present*  
*Senior Full Stack Developer*

*Amadeus Corp.*

*Doral, FL*

- Primary developer of the Interfaces team (group of dotNet APIs and Services used to receive and retrieve data from external PMS systems)
  - Responsibilities included: new development, retrofit of current services and support
- Participated as a front-end developer on one of the top Hospitality products. Main technology used: Angular, Javascript, between others
- Worked with Azure resources in order to provision services for the Interfaces. Examples are: Service Bus, App Services, and functions.
- Engaged in architectural meetings to design and create new services for the Interfaces.

*February/2016-July/2018*  
*dotNet Developer Level III*

*Uniform Advantage*

*Ft. Lauderdale, FL*

- Worked through the development and support (under a very tight deadline) of a complete new Ecommerce platform using the MVC framework and Web APIs.
- Promoted to primary developer during the development of a unified Ecommerce platform for the legacy shopping cart.
- Promoted to senior development lead on the back-end development of the new platform APIs.
- Became team Lead to the outsourcing team and helped lead the training effort for our new platform.

*May/2015-January/2016*  
*dotNet Developer/Analyst*

*Harris Corporation*

*Melbourne, FL*

- Develop and support the existing product using the MVC framework.
- UI development included implementation of JQuery widgets and knockout.
- Back-end development included refactoring code into a SOA architecture.

**February/2013-May/2015**  
C#/Java Developer/Analyst

**Ultimate Software**

**Weston, FL**

- Developed customizations for the existing HCM product.
- Responsibilities involved modifying existing code to fulfill client specific needs. In addition, our department was in charge of providing support to all clients who are/were customized. Support tasks included bug fixes, performance improvement and maintenance.
- Main technologies used were JavaScript, C#, Java, ASMX Web services, SQL, Stored Procedures, and AJAX

**June/2010-Feb/2013**  
PeopleSoft Developer/Analyst

**Florida International University**

**Miami, FL**

- Application's Developer specialized in the Student Records module.
- Responsibilities include the design, query expertise, creation and development of applications in PeopleSoft.
- Enhanced applications with advanced PeopleSoft tools like Component Interface, Application Engines, Web Services through Integration Broker, Workflow and SQR.
- Completed 50 hours of Training for PeopleTools I/II accelerated program.
- Developed Core Java stand-alone applications that serve as utilities for users to perform different tasks.
- Fully designed, created, and developed The Faculty Credentials application which has an integration of Campus Solutions and Human Resources Module for job placement

**Feb/2008-June/2010**  
J2EE Applications Developer/Analyst

**ADPI Intermedix Inc.**

**Miami, FL**

- Lead developer specialized in Core Java programming with the creation, development, and maintenance of automatic data-import processes into different billing systems.
- Participated in a full software development cycle including the creation of the database schema, User Interface design, process architecture, and actual implementation of the applications.
- Added web interface features and proactively look for new ways to enhance the UI experience
- Provided back-end and front-end support of the Java powered systems.

**June/2007-Aug/2007**  
J2SE Software Engineer Intern Co-op

**IBM Corporation**

**Austin, TX**

- Responsible for modifying existing web based interfaces to enhance its performance without jeopardizing its current functionality.
- Implemented a list of requirements to add new features to the existing User Interface.

**Feb/2006-May/2007**  
Mobile Software Developer

**tkLABS Inc.**

**Lauderhill, FL**

- Participated in the creation, maintenance and development of the autoimmunization of test cases for a variety of RIM products.
- Participated in the addition of more user friendly features to the Graphical User Interface design of the testing tools.
- Created Jasper Report Mockups for Java applications.

- Lead Build Master responsible for validating all new Motorola phone development before their release.

**May/2005-Aug/2005**                      **IBM Corporation**    **Rochester, MN**  
*C++ Software Engineer Intern Co-op*

- Development of static HTML pages.
- Participated in the development of a simulator of drives for the I/O Tools Department.

### **Education:**

---

**January 2015-2019**                      **Georgia Institute of Technology**    **Online**  
*Master of Computer Science & Engineering*

- Graduation GPA: 3.54

**Summer 2008-2010**                      **Florida International University**    **Miami, FL**  
*Master of Business Administration with a concentration on MIS*

- Graduation GPA: 3.7

**Fall 2003-Fall 2005**                      **Florida International University**    **Miami, FL**  
*Bachelor of Science in Computer Science*

- Graduation GPA: 3.6 (Cum Laude Degree)

### **Professional Memberships and Awards Received:**

---

- Recipient of the GEM fellowship program: fall 2007
- Recipient of Take Stock and Children Scholarship: fall 2003-Spring 2005
- Member of SHPE at University of Florida
- Member of Women In Computer Science (WICS) at FIU
- Member of the Association Of Computer Machinery (ACM ) at FIU
- Member of the Delta Epsilon Iota Academic Honor Society

### **Language Skills:**

---

- Fluent both verbal and written in English and Spanish.
