

PERSONAL STATEMENT

I am 51 years old and have an extreme thirst for advancement. I am based in Graham, North Carolina, having moved to my current residence in 2009. I have a supportive family, 2 dogs, and am driven to do what it takes to succeed in whatever field I choose. I have always been creative in everything I do; I have used that trait in the positions I have held to enhance and improve myself as well as the efficiency of the work environment around me.

I strive for knowledge and have a devotion towards furthering my skills along with learning new ones. There is nothing I cannot accomplish, given the right environment and proper leadership. I am not content with staying on the bottom of the ladder, I set goals for perfecting my job responsibility, and then move towards learning the next level upward.

I want a career that means something, With the lawlessness being more accepted and even idolized in our country, I feel the need to contribute to correcting this imbalance in society.

Supervisors: Donnell Miles; Louis Ludwig

GOALS AND OTHER INTERESTS

I am an avid motorsports enthusiast with two professional driver's licenses. Both licenses were obtained through proper training with qualified instructors.

I have MOOG certification in automotive technology.

I am an avid college football fan of both the University of Nebraska and University of Oklahoma. I am also an avid Atlanta Braves fan since the early 1980s.

My family history is full of those who have fought for this country, as well as the law enforcement profession, the first being my father who did both. I have had ancestors die in every American war since 1776. I am feeling a sense of pride and tradition, as well as responsibility to uphold my family history.

My father was of Nordic Viking descent, my mother was Native American, which means I come from two very willing races to stand for what is right. My mother's family name is on the Dawes Rolls.
