Profile

Driven. Hardworking. Dedicated. Willing to try new challenges, learn new skills, create and implement new ideas. Enjoys organizing, planning, traveling, communicating, and working with people.

There is a quote by William Carey that really describes my focus and passion in life: "I'm not afraid of failure, I'm afraid of succeeding at things that don't matter." I want my life and how I spend my time to count, personally and professionally; that is what motivates me in my life.
