TO DISPLAY GROWTH IN A CAREER WHERE I CAN SHOW THE CAPABILITIES THAT I POSSESS WHILE LEARNING FROM OTHERS THAT ARE MORE EXPERIENCED THAN I AM.

EXPERIENCE

FEB 2020 – CURRENT
SERVICE MANAGER, UNITED ACCESS

Started as a technician in the Memphis TN, store and was quickly promoted to service manager at the OKC location. I am responsible for the scheduling, day to day operations, work directly with customers, and training technicians in order to meet the needs of customers with physical or mental limitations. Store is currently on track to meet our goal of being a large market store, which is acquired by reaching a revenue of $5 mill per year.

MAY 2015 – JAN 2020
PRESIDENT, PERFORMANCE DRIVEN LLC

Started the company as an online parts store while active duty. Opened a store front with 5,000sq/ft shop in September 2016. Began offering tuning and calibration services in 2015 and trained 7 employees. I began getting familiarization with open-source electronic fuel injection software and getting definitions from repositories in GitHub since before starting professionally in 2011. This is where I started using notepad++ as my choice for a text editor. I would modify existing XML files to meet the definitions or parameters needed to properly calibrate the vehicle that I was working on at the time. Hosted many large events with over 300 participants at a time with food, music, and entertainment. The facility was bought out in 2018.

SEP 2010 – JUN 2018
MISSILE TECHNICIAN SECOND CLASS PETTY OFFICER, UNITED STATES NAVY

I Conducted preventative and corrective maintenance of gas, hydraulic, water heating, water cooling, humidification, and electrical systems for the weapons system of D5 missiles. I was also responsible for multi-billions of dollars' worth of repair parts in inventory. Planned daily operations for a division of 22 people. Ensured smooth logistic operations for weekly maintenance by verifying and ordering parts and scheduling maintenance to be conducted for over 3 years. Qualified senior in rate as well as out of rate positions to optimize flexibility and ensure mission accomplishment. Navy and Marine core achievement medal and several Admiral's letters. Our command kept 100% mission readiness and deployment schedule for all 4 years that I was attached to the command. Command also received Meritorious Unit Commendation.

EDUCATION

MAY 2009
HIGH SCHOOL, CAMDEN COUNTY HIGH SCHOOL

High school diploma.

JULY 2021
FULL-STACK CODING BOOTCAMP, NUCAMP

I am currently enrolled with NuCamp. The course covers technologies and applications such as bootstrap, react, react native, NodeJS, MongoDB, visual studio, Git, and more. We have used different package managers like NPM and Yarn. I have used Android Studio to emulate various android devices. The projected completion date for this course is July 2021. Outside of this course, I have also done some exploration.

SEP 2022
COMPUTER SCIENCE DEGREE WITH CONCENTRATION IN SOFTWARE DEVELOPMENT,

SOUTHERN NEW HAMPSHIRE UNIVERSITY

I am currently enrolled as a full-time student. I am pursuing my Associates degree and then continuing my education for a bachelor's degree with a concentration in software development. This would not interfere with my ability as a developer as it is an online school and will only supplement my learning to become a better developer.

SKILLS

- Team leading
- Effective communication
- Logistical coordination
- Mechanical and electrical technician experience
- Android Studio

- HTML, CSS, JavaScript, Bootstrap
- Quick learning
- React, React-Native
- Visual Studio Code
- Project Management
- Proficient in open-source tuning software

ACTIVITIES

I have been self-teaching by using resources I have found online in addition to my formal learning. Outside of professional development, I also explore with a raspberry pi 400 and listen to various podcasts and audio books relevant to programming. I am always open to learning more. Most of my coursework can be found at my GitHub account, which can be seen at github.com/JosephTittle/

CERTIFICATIONS

- Responsive web design (Free Code Camp)
- Front-End Web Development: Bootstrap (NuCamp)
- NMEDA NCT (National Mobility Equipment Dealers Association NMEDA Certified Tech) Certified
- Advanced EFI Tuning Concepts (EFI University)
- Advanced Missile Maintenance, Missile Handler (Navy).
