

PROFILE

Recent BA Psychology graduate with a concentration in Addiction, proficient with comprehensive understanding of psychological theories. Accomplished in applying therapeutic techniques to support clients struggling with substance use disorder and mental health challenges in an empathetic emotional intelligence approach.

Proficient ability to collaborate with multidisciplinary professionals and developing individualized treatment plans. I'm dedicated to contributing to a supportive counseling or mental health setting leading with integrity and compassion to stimulate recovery and enhance well-being, while leveraging my knowledge and interactive experience.
