ABOUT ME

I am a Biological Systems Engineering Major at UNL. I am passionate about helping others, and I hope to preserve the natural beauty of our planet by becoming an Ecological Engineer.

EXPERIENCE

AMC Theaters April 2019 – April 2020

Employee of the month for 4 months; worked in a team to develop customer service skills and delegation

Barista April 2020 – January 2023

Barista Trainer & Partner of the Quarter. I learned to delegate others under stress, accept responsibility, and maintain a positive mindset.

Hudson Bay Company Canvasser January 2023 – May 2023

Fundraised for nonprofits regarding humanitarian and environmental issues. Developed communication and marketing skills.

LEADERSHIP

Engineering Ambassadors Network 2022-23

I have been a member of EAN since the beginning of the spring semester. I'm happy to help spread the values of engineering to young minds of Lincoln!

Student Council President 2020-22

I raised \$24,000 for women in 3rd world countries to have access to clean water. I managed the execution of every school event/assembly.

Tutoring 2018-23

I have experience tutoring elementary and high school math, Spanish, English, chemistry, and natural science.

National Honor Society 2020-22

I participated in community service and dedicated time each day to becoming an engaged learner.

EDUCATION

I graduated from Mercy High School in Omaha, NE in May, 2022.

- ACT: 33
- GPA: 4.39

I'm currently studying at the University of Nebraska-Lincoln.

- GPA: 3.847
- Peter Kiewit Foundation of Engineering Academy Scholar
