SUMMARY

Enthusiastic, adaptable student with experience in field archaeology, lab archaeology, and professional anthropology journal editing. Previous work with state and federal governments. Proven commitment to producing detailed and informative results. Special interest in Mesoamerican history, with archaeological experience in Nicaragua and Mexico.

SELF-MANAGED PROJECTS

Sand Bar State Park

Created a board for visitors that contained engaging, informative facts on the ecology, the environment, and the history of the park and its Wildlife Management Area. Physically constructed the board and designed the information signs so they were attention-grabbing and visually pleasing.

Oversaw the re-launch of boat rentals after a year's closure. Redesigned the rental system by creating designated workspaces for each task of the rental process that streamlined visitor experience. Ensured that Coast Guard regulations were followed.

SKILL SET

Familiarity with ArcGIS, Avenza Maps, and Excel. Dedicated team worker and comfortable with team management. Highly experienced in scheduling, research, data analysis, and organization. Basic education in all subfields of anthropology. Qualified in the daily procedures of field archaeology.

WORK EXPERIENCE

United States Forest Service – Archaeology Intern. Summer '23 (seasonal)

Daniel Boone National Forest,
Kentucky

Logged new and revisited sites via the appropriate paperwork. Categorized artifacts and efficiently updated the forms of 30+ year old sites, across multiple projects, so that they may be recognized by SHPO. Performed both reconnaissance and intensive survey according to federal standards.

Sand Bar State Park - Lead Attendant. Summer '22 (seasonal)

Maintained 15 acres of land daily with heavy machinery. Managed the park's daily income and reset the till nightly. Inspected and logged equipment periodically to ensure safety and continued functioning.

RELEVANT PROFESSIONAL EXPERIENCE

Archaeological Zone of Cholula,
Mexico

Categorized Postclassic ceramics throughout several systems of classification. Logged ceramics according to type, quality, and form. Cleaned ceramics, lithics, and bone.

EDUCATION

SUNY Potsdam – degree expected Fall 2024

Archaeological Studies & Anthropology major. 3.91 GPA. Named to the President's List for two consecutive semesters. Wrote and edited for the Collegiate Anthropologist 2023 edition.
