Work History

Clinical Staff, Galloway Orthopedics , Oldsmar, FL, December 2020-Present

Galloway Orthopedics provides compassionate, effective care for patients of all ages. Although we primarily specialize in sports-related injuries, we also treat a variety of other orthopedic concerns, including damage to or replacement of joints, knees, hips ankles and shoulders as well as the entire range of other orthopedic traumas, diseases and injuries.

- Hired after being a volunteer in December of 2020.
- Room patients and welcomed them into our office.
- Pull patient images (Xrays, MRIs, etc.)
- Fill patient current and past information into the system. Including anything from medication to past surgical history.
- Update patient charts.
- Assist Dr. Galloway and the PA Clayton with duties around the office and better patient care.
- Take notes of patient's pain and details of why they were in the office for the day (SOAP).
- Schedule appointments.
- Complete various forms of receptionist help upfront. Including checking patients in and out, including but not limited to calling other doctors and insurance companies for various inquiries and faxing patient notes and prescriptions.
- Complete and track HMO patient authorizations.
- Complete and track injection authorizations for patients.
- Competencies acquired are bedside manner skills, improvement in patient-provider care, charting skills, and clerical skills.

PUBLIX, Customer Service Representative / Produce Clerk , Clearwater, FL, July 2016- May 2020

A local supermarket, where our mission at Publix is to be the premier quality food retailer in the world.

- Greeted and assisted customers
- Handled cash and operate terminal
- Stocked Produce.
- Assisted customers in locating obscure products and meet their every need.
- Maintained a clean store environment.
- Bagged items.
- Competencies acquired were handling cash, providing premier customer service, stocking produce items, and cashier/cash register skills.

Research

Behavioral Research Assistant, Global Center for Hearing and Speech, USF, Tampa, June 2021-Present

The Global Center for Hearing and Speech research focused on a mouse tinnitus model that has the capacity to detect and qualify symptoms of chronic tinnitus caused by sound exposure. This model also opens new avenues for research incorporating genetically modified animals. Due to its robust hearing capabilities in comparison with other strains, the CBA/strain of mice presents an opportunity for studying age effects on the development of tinnitus.

- Experimented with a novel therapeutic compound to test effects on age-related hearing in mice.
- Utilized auditory function tests, molecular assay studies, and data analysis employed MATLAB and Microsoft Excel to find the efficiency of therapeutic compounds.
- Competencies learned qualitative and quantitative analysis, computational analysis, and self-responsibility.

Operant/EP Research Assistant, Global Center for Hearing and Speech, USF, Tampa, August 2021-Present

The Global Center for Hearing and Speech research focused on a mouse tinnitus model that has the capacity to detect and qualify symptoms of chronic tinnitus caused by sound exposure. This model also opens new avenues for research incorporating genetically modified animals. Due to its robust hearing capabilities in comparison with other strains, the CBA/strain of mice presents an opportunity for studying age effects in the development of tinnitus.

- Promoted to Operant in 2 month period.
- Run tests on mice to train them on certain sounds and frequencies.
- Keep a detailed log on mice reactivity to frequencies.
- Experimented with a novel therapeutic compound to test effects on age-related hearing in mice.
- Utilized auditory function tests, molecular assay studies, and data analysis employed MATLAB and Microsoft Excel to find the efficiency of therapeutic compounds.
- Competencies learned qualitative and quantitative analysis, computational analysis, and self-responsibility.

Volunteer Experience

Lead Chaperone, St. Mary and St. Mina Coptic Orthodox Church, Clearwater, FL, May 2016- Present

Friendly Christian Church in Clearwater.

- Founder and Organizer of annual Jumpstart event.
- Coach children to play basketball and soccer.
- Teach children biblical lessons and hymns from the liturgy.
- Supervise and manage children every Friday, Saturday, and Sunday.
- Competencies acquired were improvements in leadership skills, organization skills, and children care.

Co-Founder and Organizer, Un-Chained Event, St. Mary and St. Mina Coptic Orthodox Church in Clearwater, FL, December 2018 - Present

<https://un-chained.wixsite.com/bmudi>

Un-Chained is an annual event intended to amplify the unity we share as One Body, in Christ. Through the cross, He set us free from the chains bounding us to the weight of our sins. We spend this day in unity to thank Him, praise Him, and give all glory to Him. At Un-Chained, we strive to get through the physical obstacles of the day to remind us to get through our spiritual struggles so that we may reach Christ who awaits us with open arms. Although the body and spirit resist each other, through spiritual fellowship we can win the spiritual race of our lives. We ask Him now, to continue to stand in our presence as we break away from the chains of last year.

- Founded Un-Chained event in December of 2020 with a couple of fellow volunteers from the church in hopes to get the children of the church closer and more involved.
- Organize a schedule for the day.
- Chose the games being played for the day.
- Pick the teams that were playing.

- Guiding children through spiritual verses and implications.
- Built games from scratch.
- Competencies learned are leadership and organization skills as well as children care.
