WHO I AM

Professionally versed in game art and development, I have 3+ years of experience through different degrees of expertise in many different programs. Training in programs like 3DS Max, Substance 3D Painter, etc; I have been skillfully developing myself for over 3 years. Please view my portfolio on CarbonMade for a visual view of my growth and progress.

SKILLS

Team Building, Teamwork, Proactive Learning, Organization, Attention to detail, 3D Modeling, Digital Sculpting, Character & Creature Building, Asset/Prop Building, Texturing, Material Design, File Optimization, 3D Animation, 3D Character Animation, Rigging, Concept Art, 2D Animation, Environment Design, World Building, Unreal Game Engine, JAVA, PYTHON, HTML, CSS.

MY FAVORITE PROGRAMS

- **3DS MAX**

This is my favorite 3D Modeling software, though I am familiar enough to work with other software as I am proficient in both Blender and Maya as well.

- **PROCREATE**

This is my go-to for drawing in 2D as I love to draw with my iPad Pro with my Apple Pencil. Though this is how I do most of my drawing, I am still proficient in working with most things Adobe including Photoshop, Illustrator, Animate, After Effects, as well as Canva, and Krita.

- **ADOBE SUBSTANCE 3D PAINTER**

This is where all the magic of 3D painting happens for me, as I love the hot keys and masking elements available in this software. I use this for all my texturing needs.

- **MUDBOX**

This is the software that I currently use, since as a student I get this software completely free. I am familiar with Z-brush as well, but currently I use what is free.

- **UNREAL GAME ENGINE**

This is my go-to game engine for world building. I understand everything from file optimization to landscape painting. Blueprinting, setting up textures, and animations are just a small bit of my skills within this engine.

EDUCATION

BA GAME ART & DEVELOPMENT • 2022 - 2025

- **SOUTHERN NEW HAMPSHIRE UNIVERSITY**

Currently holding a 3.88 GPA as well as honor roll and the Dean's list.

Please visit my Merit page to view my awards.
