Summary

As a dedicated IT professional with over 20 years of hands-on experience, I have built a strong foundation in computer systems and technology. My proficiency spans across Windows, Linux, and MacOS, as well as C++, Python, Java, and JavaScript programming languages. I am committed to continuous learning and growth, and I am eager to apply my technical expertise to a challenging role in software engineering or cybersecurity.

Job Experience

Network Technician | Computer Backup| Orange beach, AL | 08/01/2023-Now

Key Responsibility's:

- Network Admin (Multiple Sites)

Experience

Given my extensive experience spanning over 20 years, I have been immersed in computer knowledge since my early childhood, starting with Windows DOS and progressing to command prompt. I am well-versed in working with Apple products and navigating a terminal. Additionally, I am familiar with Linux, which is widely utilized due to its file structure and operational functionalities. While building a PC is fundamental, effortlessly managing them has become second nature to me over the years.

Career Goal

My career goal is to continuously expand my knowledge and expertise while contributing to the growth of a company. I aim to master several coding languages and cultivate strong teamwork abilities that align with the values of the organization
