Work Experience

Laboratory Technician

The Chemours Company - Deepwater, NJ

August 2018 to Present

- Assisting the Manufacturing Technology Chemists in conducting and documenting experiments, aimed at both current production issues and product and process improvements, in a safe and environmentally responsible manner.
- Using my knowledge of experimental design, data analysis, and scientific testing methodologies to solve problems in support of production.
- Managing the Chemical Inventory system for Pedersen Labs

Associate Investigator

Axalta Coating Systems - Wilmington, DE

March 2014 to August 2018

- Managed site chemical inventory as a contract employee, in charge of ordering and supply chain logistics
- Troubleshoot problems as they arise in the laboratory, collaborate with research investigators when erroneous or unexpected results occur
- Producing research experimental results, or information/data management results, or assembling and configuring of small/pilot scale equipment and control systems utilizing a variety of techniques

Contract Kalrez Technician

DuPont - Newark, DE

June 2012 to August 2013

- Monitors and operates presses, tumblers, and sintering ovens ensuring quality and conformance with standard operating procedures (SOP's).
- Manufactures parts in accordance with safety, quality and production best practices and requirements.
- Performs minor maintenance functions within the operating area and within level of expertise.

Pest Control Technician

Tri-State Pest Management - Wilmington, DE

June 2010 to March 2012

- Identified underlying causes that led to service and corrected them through use of pesticides and exclusion, as well as proper maintenance
- Addressed concerns with customers and educated them on preventative methods

Assistant Manager

Ballard Designs - Jacksonville, FL

November 2007 to December 2009

- Wrote training documents for the newly-minted retail division
- Conducted training courses with groups of 25 about retail systems and sales techniques
- Led the initiative of inventory management and developed a system of ordering to reduce stockouts

Associate Manager

Z Gallerie - Tampa, FL

January 2005 to November 2007

- Trained the staff on POS systems, product, and sales techniques.
- Took over for the back of house and revamped the ordering process, along with reducing shrinkage
