Work Experience

Social Media Manager

Jimmy the Greek's - Old Orchard Beach, ME

June 2018 to Present

I have been creating content and running all the social media pages for the business for four years now. I also create email campaigns, specialty menu's, event promotions. In addition to being the social media manager, I also am the front of house manager and run the restaurant as well as bartend and serve. I am currently enrolled and studying at SNHU to earn my bachelors degree in business management and marketing. I have a drive like no other, and a passion for social media marketing. I am reliable and never leave a job unfinished. I am creative, innovative, and ready to take on any task. I look forward to hearing back on this opportunity and hope I can join the team and help drive the company to complete our mission.
