

## **Keith Reynolds**

### **Cybersecurity Enthusiast and Veteran**

#### **Objective:**

I am an Information Security professional with a strong background forged through 4 years of dedicated service in the US Navy and 6 years in Information Technology roles. My experience in roles as a Solutions Consultant and Security Engineer has equipped me with the skills and knowledge to excel in a challenging, yet rewarding internship, with plans of moving onto a Master's degree program in Cybersecurity. Drawing from my military service, I possess discipline, adaptability, and leadership skills, while my IT expertise demonstrates my ability to provide tailored solutions and streamline processes. Proficient in programming languages, server architectures, and network configurations, I am well-prepared to contribute to and learn from an advanced academic program in Cybersecurity.

#### **Education:**

- Bachelor of Science in Cybersecurity, Southern New Hampshire University
  - President's List honoree for maintaining an average GPA above 3.7 in all recent semesters (Spring and Summer 2023).

#### **Certifications:**

- CompTIA CySA+ - Cybersecurity Analyst
- (ISC)2 SSCP - Systems Security Certified Practitioner
- Microsoft MTA - Microsoft Technology Associate: Security

#### **Professional Experience:**

Cybersecurity Engineer, United States Air Force  
04/2021 - 11/2021

- Collaborated with the Fixed Site Sustainment team to implement cybersecurity measures for forward-deployed operators in challenging environments.
- Developed and executed PowerShell and Bash scripts for system enhancements, including off-site testing and system deployment.
- Evaluated cybersecurity requirements and responses from defense contractors, ensuring alignment with project objectives.
- Conducted security system software updates and testing at Air Force test sites.

Security Engineer, Eden Data, LLC  
03/2020 - 04/2021

- Addressed unique security concerns of clients while maintaining production integrity.
- Prepared for SOC2, ISO 27001, and GDPR compliance audits, focusing on Access Management and cloud infrastructure.
- Managed client growth, resulting in a significant increase in revenue within 10 months.
- Created, maintained, and updated security policies and documentation to meet regulatory standards.

- Implemented tools like Pulumi, Splunk, Okta, Tenable Nessus, and Scout2 vulnerability scanner for improved security.

Systems Integration Specialist Delphinus Engineering, Inc.  
12/2019 - 03/2020

- Managed technical work documents and assessed tasks to move projects to the next phase.
- Coordinated with outside entities to achieve project milestones.
- Conducted vulnerability assessments using tools like Nmap and Splunk.

Customer Solutions Architect Pureflow, Inc.  
04/2019 - 12/2019

- Conducted inspections, audits, and analysis of software and cloud architecture.
- Presented weekly reports to senior executives on system status and security vulnerabilities.
- Played a key role in business development and sales, contributing to significant revenue growth.
- Provided training to internal employees and external clients.

Systems Specialist Aerotek  
12/2016 - 04/2019

- Contracted for various Department of Defense projects, demonstrating excellence in project delivery.
- Consistently completed projects under budget and ahead of schedule.
- Actively expanded knowledge in software analysis, bash scripting, and network security principles.

### **Military Service:**

- Electrician's Mate Petty Officer 3rd Class, United States Navy, July 2013 - December 2016
- Awarded the Navy & Marine Corps Achievement Medal and Junior Sailor of the Year for exceptional leadership and dedication for completing mission-critical repairs on a guided missile destroyer during high-level emergency tasking.

### **Accomplishments and Affiliations:**

- Wounded Warrior Project alumni member and volunteer, assisting veterans in transitioning from military service into the Information Technology industry.
- Actively networking with veterans and technologists to promote camaraderie and collaboration in the tech industry.

### **Skills:**

- Proficient in Active Directory, ACL Configurations, Access Management, Risk Assessments, Information Gathering, Python, Audit Preparation, Linux Systems, Log Review, ServiceNow, and CyberArk.
- Strong soft skills including strategic planning, attention to detail, adaptability, discipline, dedication to learning, empathy, team collaboration, written and oral communication, emotional intelligence, and organization.
