PROFESSIONAL SUMMARY

Chetachi Ezikeuzor is a design-focused developer that is eager to apply her adaptability, programming, and problem-solving skills to achieve company and/or team goals. Chetachi is an exceptional worker with a record for exceeding expectations, leading young ones as well as peers, and delivering/developing complex projects.

WORK EXPERIENCE

T-Mobile

Dec 2021 – Present

Software Engineer

Frisco, TX

- Analyzed reference code from collections repository and curated purgeable data table.
- Spearheading platform migration for multiple applications from Apigee to MEG for a more efficient API gateway management.
- Developed and deployed MEG proxy servers for multiple applications.
- Developed code changes for microservices to accommodate for additional models and data persistence.

HCL Technologies

Nov 2021 – Present

Software Engineer

Frisco, TX

- Designed and developed an e-commerce web application built in Spring Boot/Java and Angular.
- Implemented payment processing for an e-commerce web application to handle user card payments.
- Performed unit testing for multiple applications using software tools such as Mockito and JUnit5 and integration testing using Postman.
- Extracted data from credit risk to a transactions data table using proprietary software.

PROJECTS

cMenu Toolbar Plugin

- Designed and built a custom text editor allowing users to create and edit markdown files using TypeScript, React.js, CSS, Browser APIs and the Obsidian.md API.
- Implemented a new feature set allowing users to add custom commands and macros.
- Implemented a new feature set to handle common keyboard shortcuts.
- Expanded outreach through a community speaking event which helped the plugin attain over **30,000 total installations** and over **100 stars on GitHub**.

Highlightr Plugin

- Designed and built a custom text editing component that allows users to supplement annotations in markdown files by allowing multicolored highlighting.
- Built component using TypeScript, CSS, Browser APIs, and the Obsidian.md API.
- Expanded outreach using social media platforms which helped the plugin attain over **15,000 total installations** and over **100 stars on GitHub**.

AWARDS/RECOGNITION

HCL Rise Ceremony Award Winner

- Awarded with the **Rising Star Award** for innovative ideas and exceptional contributions.

Obsidian Gems of 2021 Winner

- Awarded with **2nd place** in the themes category for creating one of the most beloved themes in the community.
