Fremont - Assembly - Mircotally Swabs - Fremont, Ca

5/1/2022 - 2/16/2024

- *place swabs in plastic bags*

- *used a machine to zip bags in 4 seconds*

- *crafty hands and neat zip lines*

- *check inventory by labeling to set for packaging*

- industrial for Fremonta Production

Ametek - check inventory Fremont, Ca 2024 to 2022

Ametek Lab food sampling and Fremonta have the same boss. I work in Fremont now, and yes, it current

- *Setting tubes for laboratory testing and sampling*
- *help the technicians and the microbiologist in the laboratory*
- *check inventory for what items have been ordered or expired*

The minimum inventory for alcohol containers is 2-3, and they must be poured in 700mg liters before mixing with DI water. Alcohol checking containers must be ordered immediately, and 12 containers should be left. In the QC area, check labelings, samplings, temperatures, and orders, redo samplings if errors occur, and record them. For QC testing, use PBS media, such as Sodium Phosphate and potassium, and record the preparation and log sheet for the QC example, media preparation, and QC or Re-Cert Log sheet. Other media used include LPT, PPA, SXZ, ECW/mug Radiation, and incubator and jar containers.

- *Cleaning tubes and beakers, bottles, and dishwashing*
- *Checking inventories such as 70% alcohol bottles empty or full, labeling, supplies missing such as towels, racks, tubes, racks, sampling times, etc*

American High School

March 18, 2024 to current
