## Education

### Georgia Institute of Technology

- Candidate for Bachelor of Science in Industrial and Systems Engineering
- Faculty Honors and Dean's List
- Relevant courses: Data Input and Manipulation, Probability with Applications, Basic Statistic Method

Atlanta, GA

August 2021-May 2025

## Professional Experience

### Goldman Sachs Possibilities Summit

Participant

Virtual

January 2023

- Selected among 11,000 applicants (9% acceptance rate) to participate in an interactive, two-week long virtual program committing 10-15 hours per week for leadership development and exploring the different divisions to work at Goldman Sachs.
- Cultivated connections with professionals and expanded my network through professional skill development, divisional alignment, financial literacy coursework sessions, and technical interview preparation facilitated by Goldman Sachs professionals.

### N Solar (Empresa Nacional de Energía Solar - National Solar Energy Corp.).

Supply Chain Intern

Panama City, Panama

June-August 2022

- Created and conducted a new system for the optimization of the company's internal processes, logistics, and data organization, saving up to 65% of time weekly.
- Designed the structure for the overall workflow of the company by categorizing the data for over 500+ customers.
- Participated actively in weekly meetings to update supply plan, discuss weekly revenue, forecast potential risks, and identify priorities.

### Soapify

Founder

Panama City, Panama

June 2020-Present

- Founded Soapify, a retailer of handmade cleaning products and cosmetics such as soaps and candles.
- Managed the weekly manufacturing process from raw material to ready-to-use products and delivery of over 50 units.
- Produced a weekly revenue risk analysis and summary for manufactured items, maintained a list with key information including shortages, surpluses, and what was the revenue impact of the shortage/surplus.
- Coordinated social media outreach to over 3,000 followers and implemented them based on feedback from the website.

### MMG Bank

Operator and international transactions intern

Panama City, Panama

January 2020

- Implemented audit and approval process for approximately 20 daily international transactions.

## Leadership and Involvements

### Society of Hispanic Professional Engineers (SHPE)

Secretary, TLA Logistics Chair, Member, & Professional Experience Program Mentee

Atlanta, GA

- Participated actively in weekly meetings along the E-Board to discuss updates and identify upcoming priorities.
- Created, edited, and distributed the weekly SHPE newsletter to +300 members containing important announcements, open opportunities, and activities to increase engagement and participation.
- Managed and led a team of 8 BOD's to organize +10 events per semester focusing on culture, academic, and philanthropy development.
- Reached out to vendors, funding, and worked with other organizations to organize the overall logistics of the Taste of Latin America (TLA), largest event on campus with over 700+ attendees held every spring to celebrate and foster latinamerican culture.
- Contacted corporate and campus sponsors to grow our partnerships and obtain funding for our events, securing over \$5000 to impact underprivileged communities.

August 2021-Present

### Association of Latino Professionals for America (ALPFA)

Secretary

Atlanta, GA

August 2021-Present

- Worked closely with the Corporate Relations Team, helping maintain and create relationships with new sponsors or interested companies.
- Communicated weekly newsletters to over 200 members of ALPFA with announcements focused on professional opportunities, scholarships, programs, and internships, as well as maintained members posted and kept the information flow of meetings.

## Projects

### Data Input and Manipulation Project

August 2022-December 2022

- Performed the concept of ETL (Extract, Transform, Load) with CSV, HTML, and JSON files larger than 3MB to analyze the relation between successful players and their traits and which elements convert into success in the field.
- Applied different Python tools such as Beautiful Soup, Pandas, CSV files, JSON, HTML, API, Numpy, and Regex as techniques to manipulate data to turn it into meaningful insights and make data-driven decisions.

## Skills

### Technology:

Microsoft Office, Python, MySQL, Objected-Oriented Programming, R, Pandas, Numpy, Canva, Regex, Beautiful Soup, HTML parsing, Data Visualization

### Languages:

Spanish (native), English (fluent), French (Intermediate), Italian (Beginner)

### Communication:

Strong communication and collaboration skills, critical thinking and problem solving, time management skills

### Work Eligibility:
