- Experienced with Microsoft

RELEVANT COURSES

Human Anatomy & Physiology I | Speech-Language Development | Phonetics | Professional Writing in CSD | Introduction to Communication Disorders | Intro to Public Health | Developmental Psychology: Childhood | Writing and Critical Inquiry

FIELD OBSERVATIONS

Observer, Western Carolina University Speech and Hearing Clinic, Cullowhee, NC, Feb 2024 - May 2024 | 11 hours

- Observed behavior of graduate student clinicians and clinical supervisor with the patient one hour a week to discover a variety of child therapy interventions
- Increased the understanding of phonological disorders and child therapy by watching what mouth exercises and how the clinicians entertained the patients while working with the disorder
- Examined that phonological disorders have to do with the placement of the tongue, teeth, lips, and the stress of certain consonants

Support, University Participant (UP) Program, Cullowhee, NC, Jan 2024 - May 2024 | 25.5 hours

- Participated in helping college students with intellectual disabilities complete their coursework, attend class, plan their schedules, check their mailboxes, prep their food, and take part in recreational activities which was fully accomplished through a Special Education class.
- Determined the importance of activeness and companionship within the student disability community by observing and befriending many students within the program
- Understood the vitality of patience and sincerity when giving aid to students and non-students with disabilities for daily-life and customary collegiate situations
 - Some situations included brainstorming for projects, working in group projects, understanding and answering questions correctly for homework, and organizing emails

WORK EXPERIENCE

Crew Member, Wendy's, Locust, NC, July 2024 - Present

- Earned a job at Wendy's to gain social experience under pressure
- Managed the dining area (taking orders, making and prepping food, restocking, cleaning) which is where social skills were better developed
- Oversaw the drive-thru window and continued to converse with diverse groups of people
- Learned to work with different people as a team in a fast-paced environment while maintaining a positive atmosphere
- Improved the ability to work under pressure in demanding situations unaccompanied by the team through resolving the issue as successfully as possible

Babysitter, Crossroads by D.R. Horton, Locust, NC, June 2023 – Aug 2023

- Babysat a late-stage infant in the neighborhood to receive more knowledge on childcare
- Observed how the infant was late to speak yet managed to communicate with babbling, pointing, and eye contact throughout the shifts
- Taught the infant to say certain objects and use body language to increase cognition and emotional perception through recall of CSD lessons on child development
- Acknowledged the infant's natural growth and health incline despite being mainly non-verbal by talking with the parents

LEADERSHIP EXPERIENCE AND ACTIVITIES

Member, WCU's National Student Speech-Language-Hearing Association Club, Cullowhee, NC, Aug 2022 – Present

- United with other CSD students and conversed about internships, academic success, and graduate school
- Took part in study sessions regularly and attended graduate school seminars
