Summary

I am really passionate about Creative Writing; about writing/reading ideas and arguments; but, also how to convey them. I'm passionate about reading what people think of other things, but not because I want to think like them. I am looking for chances to edit text so that I can read and chances to meet literary agents to get my feet wet so to speak. In middle school I won a week to Mercer University because of my short story on the "Quickster." If you meet me, I might be able to tell you something about it. My skills include getting pleasure from reading what would ordinarily be a boring informational text and applying main ideas to other ones that could be persuasive and doing it critically. Another one of my skills includes working hard even though most of my life I have been disabled to be honest. I am tired of hiding that on here. I am ready to work. I have only had two jobs before: one at a farm and another as a dish washer. I grew up doing yard work with my stepfather that I love very much. I decided to put my disability beneath my feet and get my GED; and so I did; and now I am in college! I am a creative nonfiction writer that is currently having a blast in college. I believe that employing reason and evenly distributing resources, opportunities, and goods to areas of global poverty could socialize the global market which is also a network that is a function of the Internet, where producers would output feedback. With the correct military alliances, I believe that we can have a global Internet secured with the ethics of free software, open web standards and largely scaled technological projects; all with global distributive justice in the global community. Because of globalization and global carbon emissions produced through socialization of the global network of decision-making producers: climate sensitivity would increase. This is why I am for the management of globalization.

Experience

Dish Washer

Chili's

Jul 2022 - Aug 2022 (2 months)

I am not sure if this was in 2022 or 2021, but I didn't have the job for very long.

I prefer editing and writing over washing dishes because at Chili's the hardcore labor led to medical problems that are quite personal; and so, I had to quit. I worked one time before that, but it was so long ago that I do not remember the details except that it was for Lewis Taylor Farms.

Worker

Lewis Taylor Farms Inc

Jul 2014 - Aug 2014 (2 months)

This was when I lived in Omega GA. We cleared out fields to prepare for planting later. And we planted peppers. Hard work. The dates might not be right because it was so long ago; I cannot be precise.

Education

Southern New Hampshire University

Creative Writing, Nonfiction

2023 - 2027

I am a freshman that is on the honor roll. <https://meritpages.com/jmgresham>

Chattahoochee Technical College

GED
