OBJECTIVE

Result-driven Financial Analyst eager to leverage my talents in statistical analysis, research, and financial management as an analyst/researcher. Currently a senior in Finance at Millikin University, I have a strong academic performance-based foundation in accounting, finance, and statistics. I am adept at application of accounting principles, analytical concepts, and statistics to audit information, gather data, and contribute to decision making projects. I am eager to demonstrate how I am able produce a statistically significant to improve a business' top and bottom line both in the short- and long-term.
