OBJECTIVE: Motivated and detail-oriented mechanical engineer seeking to leverage strong analytical skills and technical expertise in a challenging role that allows for innovation and growth. Dedicated to contributing to the design, development, and optimization of cutting-edge mechanical systems while continuously enhancing efficiency and performance. Seeking an internship position where I can apply my strong technical skills and knowledge gained through coursework and hands-on experience to contribute to innovative projects and gain practical experience in the field.

EDUCATION:

Miami University, Oxford, Ohio

Degree: Bachelor of Science, Graduating in May of 2027

Major: Mechanical Engineering

Cumulative GPA: 3.82/4.00

Honors College Student

RELEVANT SKILLS:

- Python, MATLAB, Autodesk Inventor, Siemens NX, Microsoft Office, JMP
- Extraordinary Problem-Solver: Ability to analyze complex problems, develop creative solutions, and implement them effectively.
- Great Communicator and Team-Player: Clear and concise verbal and written communication skills to convey technical information effectively.
- Attention to Detail: Precision in design, calculations, and documentation to ensure accuracy and reliability.

WORKING EXPERIENCES/CERTIFICATIONS:

OASIS/Intel Rapid Semiconductor Certification and Leadership Workshop

July-August 2024

- Completed technical and leadership modules focused on advanced manufacturing and semiconductor processes

Costco Wholesale Corporation

Cashier Assistant, June 2023-August 2023

- Attention to Detail: Maintained accurate inventory records and conducted regular inspections to identify and address any discrepancies promptly.
- Problem-Solving: Implemented creative solutions to address logistical challenges and streamline workflows, improving productivity.
- Team Collaboration: Worked collaboratively with colleagues to coordinate tasks and achieve common goals, fostering a culture of teamwork and mutual support.

Walmart Inc.

Cashier July 2022-March 2023

- Maintained accurate cash balances and reconciled transactions at the end of each shift to minimize discrepancies.
- Utilized analytical skills to identify opportunities for process improvements and propose innovative solutions to enhance transactional efficiency.
