OBJECTIVE

I want to get the best grades, skills, and experiences that I can while on my journey to become a veterinarian. My hope is to open my own clinic in the future. In the meantime, I want to get as much work experience as I can. I value hard work, responsibility, respectfulness, and kindness. I want to work somewhere with an environment that supports these values. I am currently a veterinary sciences major on the Pre-Vet track with a regent's scholarship and a 4.0 GPA. I am eager to learn more about veterinary medicine.
