PROJECTS

63rd London International Youth Science Forum • 07/2023 - 08/2023

LIYSF

The LIYSF is the world's largest and most prestigious organized youth science forum held at Imperial College, which brings together every year 600 of the world's brightest students from over 100 countries on all continents to experience the environment of research, technology and innovation with internationally prominent professionals and institutions. This reunion happens every year and lasts about three weeks. In the program we have contact with several important people who bring us knowledge about different subjects that we can take to our personal and professional lives.

The Impact of the Covid-19 Pandemic on the Environment - XVII CULTURAL AND SCIENTIFIC EXHIBITION

Colegio Jean Piaget

Student-led project where participants choose an area to be the foundation of the project and then decide a theme to work on during an entire year. There are three phases where if you pass through these you can be indicated to participate in FEBRACE and to go to London for the largest and most prestigious youth science forum organized in the world. My group passed through all these phases and we got the invitation to participate in FEBRACE and I got the invite to go to London to present my project since we got 4th place.

VOLUNTEERING & LEADERSHIP

Upperside Idioma Inglês Fluente • 02/2022 - 07/2022

English Teacher Assistant • Santos, Sao Paulo, Brazil

Volunteer job where I helped English teachers teach this language to children. Every Monday and Wednesday at 7 pm I would help with the organization and dynamic of the class giving the support for the kids and explaining what they have doubts about. I learned about how to deal with kids in a school environment. Understood what works during the classes, analyzing and writing what the kids liked or not. Classes based on the basic understanding of English at the first level to advance to the next books according to age and level of fluency in the language
