## Education

---

### Champlain College

Bachelors of Science in Computer Networking and Cybersecurity

GPA: 3.845

**Burlington, VT**

May 2027

## Relevant Work Experience

---

### Champlain College Esports

Network Administrator | Events Coordinator

**Burlington, VT**

August 2023 - Present

- Developed the back end infrastructure of the esports facility and worked with tools such as FOG, Active Directory, Grafana, and ProxMox.
- Planned and operated several on-campus events for the student body of Champlain College.
- Lead two successful, large-scale charity events raising over nine thousand dollars for the UVM Children's hospital across both year's events.

### The Leahy Center for Cybersecurity and Digital Forensics

Forensics Investigations Level 1 | DevOps Researcher

**Burlington, VT**

September 2023 - Present

- Implemented infrastructure for the new and cutting edge environments for the virtual labs on campus supporting the necessary resources for the computer related majors at the college.
- Handled student and professor tickets for a variety of concerns and challenges within the environment.
- Collaborated on management tasks interfacing with the physical labs within the college.
- Studied many forensics topics including data generation, and basic malware analysis.
- Became deeply familiar with professional documentation in both forensics and in development environments.
