WORK HISTORY

Certified Correctional Officer & Medical Imaging Assistant (Intern), Jan. 2024 – Present **Jefferson Correctional Institution [Medical Unit]** – Monticello, FL

- Mastered role as Correctional Officer and served as subject matter expert for lower-level team members
- Performs diagnostic imaging exams (mostly chest and extremity X-rays).
- Transports or work with custody staff to safely manage patients during procedures.
- Maintains equipment and follow radiation safety procedures in a secure environment.
- Collaborates with correctional nurses, physicians, and mental health staff.

Travel Duty Correctional Officer (Shift Supervisor), Jan. 2021 – Jan. 2024

Core Civic – State of Georgia

- Supervise correctional officers and facility operations to ensure safety, security, and compliance.
- Conduct regular inspections and enforce safety protocols, promoting risk awareness and incident prevention.
- Oversee shift operations, evaluate staff performance, and provide training on post procedures and emergency response.
- Facilitate communication across shifts and departments to ensure continuity and coordination of care and custody.
- Participate in staff hiring, orientation, and resource management to support effective facility operations.

Health Information Technician, June 2017 – Jan. 2021

Wakulla Correctional Institution [Medical Unit] – Tallahassee, FL

- Managed and secured confidential inmate medical records in compliance with HIPAA and correctional health regulations.
- Coordinated the intake, maintenance, and release of health information for routine care, chronic conditions, and emergencies.
- Utilized electronic health record (EHR) systems to enter, track, and audit medical data; generated reports for quality assurance and compliance audits.
- Leveraged correctional officer training to support security protocols during medical transports, emergency incidents, and high-risk health encounters.

Treatment Rehabilitation Specialist Supervisor I, Mar. 2019 – Apr. 2020

Florida State Hospital – Chattahoochee, FL

- Supervised daily therapeutic and rehabilitative care of patients with complex medical and behavioral needs in an inpatient setting, fostering skills in patient monitoring, safety protocols, and interdisciplinary care coordination.
- Collaborated with nursing, medical, and clinical staff to develop and implement individualized treatment plans, strengthening clinical communication and patient-centered care skills.
- Monitored and documented patient progress, behaviors, and treatment responses using electronic health records (EHR), aligning with radiologic technologist responsibilities in accurate documentation and patient interaction.
- Supported diagnostic and treatment processes by preparing patients for procedures, explaining protocols, and observing changes in physical or emotional condition—experience directly translatable to patient care in radiologic imaging.
