Kokua Kalihi Valley Comprehensive Family Services

Honolulu, Oahu, Hawai'i

January 2016 to July 2023

- Worked with members of an interdisciplinary team to provide quality care to complex patients to achieve optimal clinical outcomes within the context of a patient-centered medical home or patient-centered healthcare home.
- Provide health education, training, care management, and outreach services to patients with multiple medical and psychosocial problems.
- Work closely with underserved immigrated populations, particularly those who live in Kalihi Valley, assisting with monitoring of health care outcomes and care management for high-risk complex patients.
- Provide patient education and counseling on various facets of diabetes, including but not limited to pathophysiology of diabetes, lifestyle changes and promotion of health.
- Assist patients with setting self-management goals. Monitor patients to achieve these goals and provide support achieving goals as appropriate.
- Assess patient's psychosocial situation in order to understand the needs and barriers that may impact patient's ability to care for their health (i.e., shelter, transportation, and childcare, and elder care, access to care, foods, and safety) and arrange and coordinate applicable services!
