EXPERIENCE

The Farmer's Museum, Cooperstown NY- *Food Service Worker*

May 2024- PRESENT

I make sure all of the food machines are up and running when I am opening. I also count all of the cash into the drawer at the beginning of each shift, and count it all out of the drawer at the end. If there is a cash deposit to be made, I do that as well. During the shift, I help customers and make their food quickly and efficiently, and I always leave them with a smile.

For events I've worked admissions and that entails cash payments, phone calls and checking event goers off of lists and reconciling the drawer at the end of the night.
