

**STUDY  
ABROAD**

---

By Carter Bain

# WHAT IS STUDY ABROAD?

- It's when you take credit college courses in another country located in a different area than where your main college is
- You get to live & learn in a different culture be present in the community all while taking your academic courses towards your major/ area of study
- The duration is usually one semester but some people apply to do a full academic year overseas. Students will typically study abroad their Junior year.

# WHY STUDY ABROAD?

- Navigate Different Cultures and communicate with other people
- You get to work with a diverse group of people
- When looking for a job in the future, your employer might be impressed to learn that you've studied abroad.
- This also opens the door to more career paths down the road, you didn't think had an interest in you
- You also gain a worldwide perspective that doesn't include just working on your studies or in a job

# BENEFITS & CONCERNS OF STUDY ABROAD

- Cognitive & Relational skills
- Professional Development
- Financial Cost (money)
- Fear of being homesick
- Health Concerns might pop up
- Fear of missing out on something at home
- The sense of a new beginning in life or chapter in your story, creating a sense for adventure

# EXTRA FACTS, COMMENTS ABOUT SA?

- I love to travel! I have been to Tortola around 2012, Belize 2016, Egypt 2018, Hawaii 2019, Turks & Caicos 2022, & Costa Rica 2023.
- Stonehill College offers 23 study abroad opportunities to countries like Greece, Czech Republic, & Thailand.
- Increase in your personal growth
