PROFILE

Passionate first-year student at Georgia Tech pursuing a Bachelor's degree in Music Technology, with a strong interest in merging audio engineering, digital music production, and technology. Seeking to apply my programming skills (Python, HTML, CSS, Chuck) and experience in digital audio production (Logic Pro X, Pro Tools) to explore interdisciplinary projects. Looking to leverage my leadership experience in organizing school and community events to collaborate on innovative projects and research at the intersection of music and technology.
