PROFESSIONAL SUMMARY

I'm an honors student at the University of Arkansas pursuing a Bachelor of Architecture and a minor in Urban & Regional Planning. With over three years of experience on residential and commercial projects across eight states, I've contributed to adaptive reuse, housing, education, and office renovation work. My responsibilities have included schematic design, RFIs, quality control, design proposal packets, and scripting in AutoLISP and DCL to streamline workflows. I've also led documentation on a renovation project, demonstrating leadership and precision. I bring strong skills in Revit, AutoCAD, Rhino, Bluebeam, and Excel, and am actively pursuing licensure.
