EDUCATION

Georgia Institute of Technology

Atlanta, GA

Bachelor of Science in Computer Science, GT Honors Program

Expected 12/2027

- WebDev @ GT, AI @ GT, Product @ GT, Girls Who Code, Hexlabs

INDUSTRY SKILLS

Programming Languages: Python, SQL, HTML, CSS, Java, Javascript, React, MongoDB, Express, Node.js

Design Tools: Canva, Adobe Suite, Figma, Framer, Google Looker Studio

Developer Tools: Git, Google Colab, LaTeX, SnapAR

EXPERIENCE

Software Development and Project Support Co-Op

May 2025 - Present

Itential

Atlanta, GA

- Developing an LLM to help engineers, customer success teams, and clients solve common technical errors they may face in the automation platform
- Modelling and analyzing customer data to simulate how clients use our Workflow Engine to finalize a limit on concurrent tasks, ultimately improving our pricing model

Artificial Intelligence Intern

July 2023 - August 2023

Amazon Web Services

Remote, Singapore

- Built a health-focused AI chatbot called HealthMax using Amazon Lex and AWS Lambda
- Researched and analyzed diet and workout plans to fit specific health issues. Used conditional branching to create a bot that helped tailor a plan to fit the user's biometrics and goal
- Learned how to use Amazon Rekognition, AWS's other services, and Artificial Intelligence theory

PROJECTS

GeoGuard | MongoDB Atlas, Node.js, React, Figma

October 2024

- Developed GeoGuard, a map-based interface made using the Google Maps API to display crime data through heatmaps
- Crime data was sourced from the Atlanta Police Department and processed through the backend, which was built using Node.js and MongoDB Atlas to store and manage historical data

NeuroNest | Figma | Design Track Winner of Hack@WACC

February 2025

- Designed and developed NeuroNest, a mobile application that assists neurodivergent individuals in locating nearby calming and sensory-friendly environments, personalized based on their unique sensory preferences and needs
- Awarded first place in the Design Track for outstanding visual aesthetics and usability
