“The books are presented as double-page view just as a paper book will be viewed when held. And the succeeding pages are viewed by scrolling down rather than clicking forward. This allows much greater visual acuity and opportunities for understanding. The comments I have received from teachers regarding the ease of use and applicability for students at grade level, below grade level, and those requiring resources for differentiated learners with various disabilities have been beyond positive. epointplus has hit it out of the ballpark.”

—Michael Powell, Director Library Services
