

Rotary Student Program

A GLOBAL CAREER MENTORING INITIATIVE

Making a Difference
One Student at a Time

Through the Rotary Student Program, young people explore career interests by meeting one on one with business professionals, from CEOs of global corporations to small-business owners.

In reverse interview-settings, students have the chance to ask questions, explore options, and discuss future plans that either confirm or redirect their dreams—before starting college and career.

After the meeting, students are invited to speak at a Rotary meeting, introduce themselves, talk about future goals, and report on what they gained from the Rotary Student Program experience.
