PLEASE READ: Rear cabin area must be free of debris and items prior to installation of Underseat Storage Box.

UNDERSEAT STORAGE BOX INSTALLATION

1

Lift the rear seat for installation of Underseat Storage Box. Be sure to clear any objects away from the area in which the Underseat Storage Box will be installed.

2

Feed one end of supplied Safety Strap through supplied Double-Lock Buckle.

3

Feed the loose end of the Safety Strap into the slot located at the center back wall of the Underseat Storage Box.

4

Place the Underseat Storage Box against the contours of the floor. The Safety Strap should be facing towards the rear of your vehicle.

5

Install the end of the Safety Strap through the notch located in the back of the of the passenger side metal seat bracket.

6

Feed the Strap through the Buckle. Pull the Strap taut to prevent Underseat Storage from displacement.

Small loose items can potentially roll around and become somewhat annoying. Simply place these items in a towel, blanket, or storage bag – roll them up and place in the Underseat Storage Box.

Close the lid of the UnderSeat Storage Box, and lock each lock with keys.

Underseat Storage Box installation is complete. Lower seat into place.
