The Cabin Addiction Treatment Model

This seminar will focus on how we integrate CBT, 12 Steps and The 3 Circles to treat both chemical and process addictions in a shorter time span than traditional techniques. Our “all addictions” treatment model uses secular language, which is culturally adaptable, to define and plan for abstinence, relapse triggers and recovery actions.

It can also be used to effectively individualise treatment for difficult to engage clients such as:

- Chronically relapsing addicts who display severe symptoms of addiction and require longer reduction plans.
- Dual diagnosis clients who need longer term medicating.
- Those with severe pain management issues who require medicating short to mid-term.

Speakers:

Alastair Mordey
Programme Director
The Cabin Chiang Mai

Prem Kumar Shanmugam
Programme and Clinical Consultant
The Cabin Chiang Mai
