Jeep Renegade . . . . .	2, 13 - 22
Promaster . . . . .	2, 23 - 32
Promaster City . . . . .	2, 33 - 43

**PLEASE READ BEFORE OPERATING**

The **Mopar Accessory Uconnect™ Phone, Bluetooth® Hands-Free Car Kit** utilizes the vehicle's AUX audio input jack as a gateway to the vehicle's radio/audio system.

The Uconnect™ Phone System will automatically switch the Radio to AUX audio to allow outgoing and incoming calls to be broadcast through the vehicle's loudspeakers and act as an AUX Audio Input. The Mopar Accessory *Uconnect™ Phone, Bluetooth® Hands-Free Car Kit* will only operate;

- When a Consumer's Audio Device is plugged into the AUX Jack and playing and in AUX mode.
- When the Radio is playing AM/FM/SAT/CD/USB Audio and no Consumer Device is connected to the AUX Input.

**NOTE: If a Consumer's Audio Device is plugged into the AUX Input, and the operator selects the Media button to go to an alternate Media source (i.e. Radio, CD, USB media) the Vehicle's Radio detects that an AUX device is already connected and will not switch the radio into AUX mode to receive an incoming or make an outgoing call.**

**S'il vous plaît lire avant d'utiliser**

Le **Mopar Accessory Uconnect™ Phone, Bluetooth® Kit mains libres voiture** utilise la prise AUX d'entrée audio du véhicule comme une passerelle vers le système de radio / audio du véhicule.

Le Uconnect™ Système téléphonique commute automatiquement la radio à AUX audio pour autoriser les appels entrants et sortants à être diffusés par les haut-parleurs et d'agir du véhicule que d'une entrée audio AUX. Le Mopar Accessory *Uconnect™ Phone, Bluetooth® Kit mains libres voiture* ne fonctionnera;

- Lorsque périphérique audio d'un consommateur est branché dans la prise et le jeu AUX et en mode AUX.
- Lorsque la radio est en cours de lecture AM/FM/SAT/CD/USB Audio et aucun périphérique à la consommation est connecté à l'entrée AUX.

**REMARQUE: Si un périphérique audio est branché sur l'entrée AUX, et l'opérateur sélectionne le bouton Multimédia pour aller à une source de média alternatif (i.e. Radio, CD, USB media) Radio du véhicule détecte qu'un dispositif AUX est déjà connecté et ne sera pas allumer la radio en mode AUX pour recevoir un appel entrant ou effectuer un appel sortant.**

**Por favor, lea antes de operar**

El **Mopar Accessory Uconnect™ Phone, Bluetooth® Kit manos libres para coche** utiliza AUX jack de entrada de audio del vehículo como una puerta de entrada a la radio / sistema de audio del vehículo.

El Uconnect™ Sistema de teléfono cambiará automáticamente la Radio a AUX audio para permitir llamadas salientes y entrantes que se emitirá a través de los altavoces del vehículo y actuar como una entrada AUX audio. El Mopar Accessory *Uconnect™ Phone, Bluetooth® Kit manos libres para coche* sólo funciona;

- Cuando un dispositivo de audio está conectado a la AUX Jack y jugando en el modo AUX.
- Cuando esté escuchando la radio AM/FM/SAT/CD/USB Audio y no hay ningún dispositivo conectado a la entrada AUX.

**NOTA: Si un dispositivo de audio está conectado a la entrada AUX, y el operador selecciona el botón Media para ir a una fuente de los medios de comunicación alternativa (i.e. Radio, CD, USB media) Radio del vehículo detecta que un dispositivo AUX ya está conectado y no se enciende la radio en el modo AUX para recibir una llamada entrante o hacer una llamada saliente.**
