Information to Competitors about Equipment Inspection

It is mandatory that ALL sailors go through equipment inspection and that all equipment that you will use are being inspected. At the end of it, you will certify on the Equipment Inspection Form that you will not change or repair anything without the permission of the Technical Committee / Event Measurer.

To change or repair equipment, you will need to fill a "Request for Change/ Repair of Equipment" form, present both the damaged and replacement equipment to the Technical Committee for approval. Failure to do so will result in penalties as per S.I. 5 & S.I. 6

How the inspection works:

1. Equipment Inspection will take place in the measurement tent.
2. Sailors should have already booked for an equipment inspection time slot online. If you have not done so, check for available time slots with the check-in desk of the Equipment Inspection Area.
3. Proceed to the measurement area and join the queue_at least 5 minutes before your booked time slot.
Please DO NOT put your boat in the queue if you have not booked a time slot!
Collect your Equipment Inspection Form from the check-in desk, check all your name, sail numbers, country letters etc) and complete the form.
4. Boats shall be presented for inspection with the bottom mast, boom and all control lines rigged. The sail and the top mast shall be derigged and ready for inspection. All battens shall be removed from the sail. The tiller & tiller extension shall be removed from the rudder.
5. All equipment must be clean and dry. Remove all extra items that are not required for inspection; e.g. extra mast sections, extra sails, sail and foil bags, clothing and water bottles etc.
6. While in line, do not jump queue. Respect the other sailors and the equipment inspection team - unruly and disorderly behaviours will not be accepted.
7. At each inspection station, the inspection team shall stamp an event limitation mark and initial on your equipment with your sailor ID / sail number of this event. Sailors please check that all your equipment has been stamped / signed before leaving the Equipment Inspection area.
8. When you pass your Equipment Inspection, your form will be endorsed by the Event Measurer. The completed form shall be submitted to the registration office to complete your event registration.

9. All sailors please take note of the following "Advice on Country Letters" that has been published on the event website:

https://www.eurilca.eu/documents/150/Information_National_letters.pdf

Thank you for your cooperation and we hope to make the equipment inspection process a smooth and successful one!

Javier Blanco Gomez
Technical Committee Chairman
