## 7. Description Of Incident

214 was on starboard tack layline to the weather mark and 209 approached on port tack and bore off to duck behind 214, but 209 bore off too late and passed by 214 so closely on port tack that their mast hit the mast on 214 and caused substantial damages. Many pieces were observed flying off the top of 214's mast during the collision. 209 agreed he's at fault and will report this to his insurance co. 209 stated he would not attend a protest. I'm filing this because there are damages and no record of events. 209 has shown himself to be courteous and amenable to resolving this. 209 claims they did a penalty turn but 214 had to retire due to uncertainty with it's mast. Both parties are in agreement. I guess there's no point having a hearing if one party isn't available.

## 8. Damage Or Injury

masthead light (missing)  
Garmin WindSpeed Angle transducer (missing)  
Transducer mast cable ?  
15" Windex (missing)  
Custom bracketing (broken pieces)
