Dear Mr. Heiko Thoelmann,

First of all thank you and the members in the Protest Committee for the time devoted to resolve case # 3 (HUN 759 OCS).

During the process we have filed a letter to request the reopening stating that “the Protest Committee has made a significant error” the wording of which is rather strong and unfair, and is not reflecting the personal helpful and lessonful approach that we experienced during the process of our case. Therefore, we owe you and the members of the Protest Committee an appology.

Thank you again for your work and assisting in arriving to a fair resolution of our case.

Sincerely,

HUN 759
