

# MODULAR L-200 / L-212 SERIES

## LID DISPENSERS

### DIVIDER LOCATION:

Space the Dividers according to your lid sizes and attach the dividers to the Lid Dispenser with the provided small screws and wingnuts.

### STRAW DISPENSER LOCATION:

1. Peel the backing off of the tape and attach this section between the RIGHT inside of the Lid Dispenser and one of the Dividers.
2. Attach the Divider with the Straw Dispenser to the bottom of the Lid Dispenser with the screws and wingnuts.

### MOUNTING THE LID DISPENSER:

The Lid Dispenser can be attached to a vertical surface with the keyhole slots or simply set on a counter.

Optional mounting brackets are available for special mounting locations.

Part number 17-L200-JB will attach to the back of the dispenser to allow the unit to hang over a counter ledge.

Part number 17-L200-MB attaches between the bottom of the Lid Dispenser and the top cover of a drink dispensing fountain as shown above.

1. Drill holes as required into the top cover and screw on the brackets with the provided screws.
2. Using the slots in the brackets and holes in the bottom of the Lid Dispenser, align and screw together with small screws and wingnuts.

\*MOUNTING BRACKETS (17-L200-MB) MUST BE SPECIFIED WHEN ORDERING. (EXTRA CHARGE)
