

1987 - 2009

Current REX

Outside 14-5401-1641

Inside 14-5401-1642

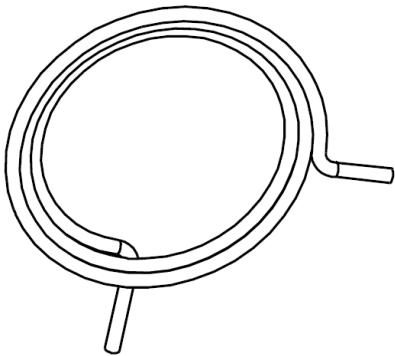

2008, 2009

For a time had recessed spring cover

1.75 coils

No longer available

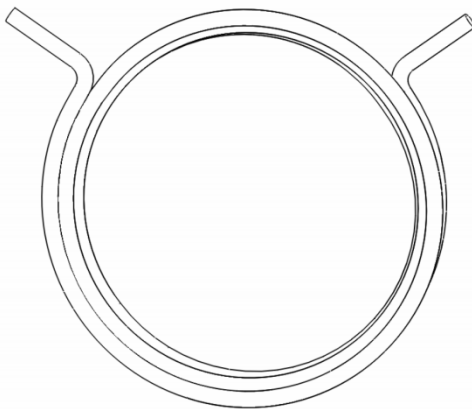

2009 - June 2013

Several revisions, some with cover, some without.

Stop plate had several revisions

Note one leg crosses over the coil

14-5400-1061

July 2013 - Ongoing

3.75 coils

Engineering made some design changes to the rose support assembly and the return spring that went into production in July of 2013. This spring does not work on locks made before this date.
