VISIT OUR WEBSITE AFWOOD.COM

America's Finest since 1967

WE ASSEMBLE AND MANUFACTURE:

- Manufacture built-up and K.D. pocket frames
- Pre-hang and machine commercial wood frames
- Pre-finish wood doors and frames
- Machine wood doors
- Roll form our own steel stiffeners for our pocket door frames
- Custom metal frame: shear, machine, brake press; Amada Turret
- Stock Design Hardware for your commercial needs

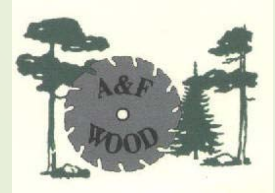

DID YOU KNOW A & F WOOD PRODUCTS....

- Started with two brothers Al & Frank in 1967
- The 2nd generation; Pat, Steve, and Jason purchased in 1989
- Outgrew 24,000 sqft and moved to Howell 36,000 sqft on 18 acres
- Still produce hollow metal at our Brighton location
- Has two locations and is still growing
- Does NOT sell to contractors.
- And therefore, does NOT do take-offs

HOLLOW METAL

A & F Wood Products Hollow Metal Doors STOCK INVENTORY

A & F Stock N-Series

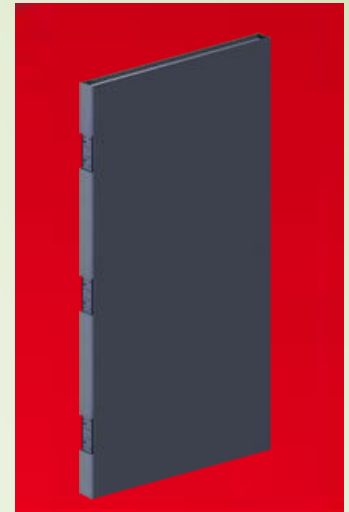

Our quality steel doors are manufactured by Mesker Door. We call them the "N"-Series because they're Non-handed (reversible), giving you much greater flexibility when installing our standard N-Series hollow metal doors.

Each hollow metal door we stock comes with standard polystyrene and closer reinforcement. Our 1 3/4 inch N-Series are flush, constructed of two face sheets of 18 gauge steel, stretcher-leveled quality of flatness. The vertical edges of our steel doors come with neat hemmed edge seams mechanically interlocked for maximum structural integrity. All hinge reinforcements are 3/16 inch steel projection welded to the steel door edge at three points above and 3 points below the hinge mortise. The top hinge reinforcement extends to the top of the door and has three extra projection welds on the extended leg.

	Item Description	Armweld	Ceco	*Curries (special strike is required lock off 5/16")	Kewanee	Mesker	**pioneer (hinges only, lock off 2-5/16")	Republic	Steelcraft

Why Prefinish with A & F?

- A pleasing and consistent appearance with more uniform clarity, color, texture and sheen.
- Automatic door warranty protection.
- Smoother finishes; free of surface impurities.
- Compliance with environmental statutory and regulatory requirements.
- Lower finishing costs.
- Protection from adverse job site conditions.
- Superior service and problem resolution by dealing with one vendor.
- Faster project completion, with no field requirements other than installation.
