

G*GRASS®

ZARGEN DRAWER SYSTEM

The metal drawer system that provides flexibility to please the most demanding design needs.

The Zargen Drawer system offers a tried and tested technology.

Maximum design versatility.

For years the Zargen metal drawer system has provided cabinet makers the quality and functionality expected of GRASS hardware along with the flexibility to design your own drawer space. The versatile metal drawer system offers deep drawers and standard drawers, pullout shelves and inset drawers, full extension drawers and railing systems. Zargen offers endless possibilities for the enduser. Now made in the USA.

ZARGEN DRAWER SLIDE SYSTEMS

Versatile. Reliable. Proven.
Zargen delivers superior performance
with tried-and-tested technology.

Flexibility to the most demanding design needs.

From residential and office furniture to commercial and institutional settings, the versatile and reliable Zargen System delivers the superior performance one expects from a premium slide. Built-in positive stops act as a shock absorber protecting the drawer front from excessive impact during closing. A self-closing action, with a 60mm slope allows the drawer to close with just a gentle push. And the Zargen System offers side and height adjustments so you get perfect alignment every time.

Endless possibilities

A well-organized storage system creates efficiency. The Zargen slide system is designed with completely interchangeable components. From cabinet members to full extension members to high sides to railing systems, the drawer system provides the flexibility to please the most demanding design needs for any application.

Endless Possibilities

Grass Zargen

	Pendaflex File Railing • Three file systems available • Easy to construct	18 - 19
	Accessories	20 - 23

Technical Information

for Zargen

Double Stop

The double stop prevents the drawer from falling out while being extended. In addition, the drawer can be locked in the open position.

Rollers

Special rollers provide lateral stability and a smooth glide. The rollers are tested for durability, and washers behind the rollers ensure stability throughout the tested lifetime.

Built-in Stop

The integrated drawer stop protects the drawer front from impact during closing. Furthermore, it acts as a shock absorber and a self-alignment feature for the drawer fronts.

Closing

Self-Closing The distinctive feature of all Grass drawer slides. From a range of 2 3/8" [60 mm] out, the drawer closes quietly and smoothly. Drawers closed with force will not bounce back.

Minimum Reveal Minimum reveals are required between fronts due to the specifically formed closing action.

Parallel Closing The parallel closing action keeps the drawer front properly aligned with the cabinet front. Cabinet members feature elongated holes for height adjustment.

Adjustment Features 6036, 6035

- 1 Height Adjustment: Loosen screws 2 slightly. Adjust screw 1 (adjustment +/-2mm). Tighten screws 2.
- 2 Side Adjustment: Loosen screws 2 slightly. Adjust front to required position (adjustment range $\pm 1.5\text{mm}$). Tighten screws 2.

Adjustment Features 6436, 6236, 6136

- 1 Height Adjustment: Loosen screws 2 slightly. Adjust screw 1 (adjustment +/-2mm). Tighten screws 2.
- 2 Side Adjustment: Loosen screws 2 slightly. Adjust front to required position (adjustment range $\pm 1.5\text{mm}$). Tighten screws 2.

After adjusting front panel, mount fixing screw.

Weight Capacity per pair of slides

Zargen: 100 lbs dynamic load rating; 100 lbs static load rating.

Technical Information

for Zargen

Cabinet Member

To simplify installation of the cabinet member, a unique double-hole pattern for 32mm and 37mm setback has been developed.

Installation with Wood Screws

With Wood Screws (#6x5/8" Flat Head Phillips) the cabinet member is screwed directly on the end panel. To guarantee precise positioning, pre-center with a Grass pilot drill. For wood screws, use the front section of the double hole.

Installation with Euro Screws

With Euro Screws (Flat Head Phillips) the cabinet member can be fastened into a pre-drilled 32mm hole system. See drawing to the left for all fastening positions.

Captive Rollers

Manufacturing often is accompanied by tolerance problems. To avoid this situation, Grass slides are designed to eliminate side movement of the drawer. After installation, the right drawer member blends perfectly with the right cabinet member for guidance; the left side allows for cutting tolerance of the drawer and the cabinet components.

Note: 6034 slide shown

Full Extension Slide

Using the 6200 member, the slide becomes fully extendible. An already existing drawer does not have to be altered. Only the cabinet member needs to be lowered 32mm.

One Cabinet Member Slide System

All slides of the Zargen system utilize the same cabinet member. The 6200 member can be inserted into the slides below when a full extension is needed. The example shown is 6035, see page 13 for more information.

System Organization

A unique feature of the Zargen System is its universal adaptability in cabinetry. The system offers function, drawer space utilization and economy. The Zargen System solves all organizational requirements with regular drawers, inset pull-outs, divider railings and more.

Slide with railing (6036, 6100)

Pull-out railing (6610, 6100)

Zargen 6436

213mm [8 3/8"] Side Height

- Integrated drawer slide and drawer side
- Self-closing feature with 60 mm [2 3/8"] closing range
- Built-in drawer front bumpers
- Quick assembly through dowelled and integrated front fixing brackets
- White epoxy finish
- Tolerance adjustment 2 mm [3/32"]
- Load capacity: 100 lbs.
- Adjustments: Cam Height (± 2 mm), Side (± 1.5 mm)
- Made in the USA

Technical:

- Drawer slide attachment:
 - Wood screws #6 x 5/8 FHP
 - Euro screw lengths 18 mm, 13 mm, 7.5 mm
- Bottom panel thickness: 12.7 - 19 mm [1/2" - 3/4"]
- Back panel thickness: 16 - 19 mm [5/8" - 3/4"]
- Back panel height: 210 mm [8 1/4"]

Zargen

Railing for single gallery pull-out shelves

- Easy and quick to install with push-fit between round tube and corner post
- Epoxy coated aluminium tube
- Available in white (RAL 9010)
- For use with single extension 6610 slide

Railing for inset pull-out shelves

ID	Description	Item No.	PU
1	Round tube (Cut to size)	3570.1000.2	20
2	Corner post, single	3576.2.VE20	20
3	Divider railing clip	3575.2.VE20	20

Installation dimensions

Calculation the length of railings

Side railing = nominal length - 25 mm (1")

Cross railing = inside cabinet width - 33 mm (1 5/16")

Divider railing = nominal length - 40 mm (1 9/16")

PU = Packing Unit

Zargen Pendaflex

File Railing

System 6110

- The Pendaflex Rail 6110 provides a lip for drop in file folders. It is cut to a desired length and attached over the 6100 side railing.
- Use in conjunction with Zargen 6026, 6036, 6136, and 6236
- Easy to construct

ID	Description	Length	Color	Item No.	PU
1	Pendaflex Rail 6110	1100 [43 3/8"]	White	99062-05	20

*Inside Cabinet Width (ICW)

Legal size paper:
ICW = 418mm [16 1/8"]
Letter size paper:
ICW = 342mm [13 3/8"]

*This measurement is used for the 6036. For other sides, refer to the appropriate page.

Drilling Patterns for Pendaflex File Drawers

Front panel (manual and automatic assembly)

PU = Packing Unit

6196 Bracket

- Attaches cabinet member of drawer slide if no side panel is available
- Bracket can be used for right or left
- Polybag includes 4 brackets with screws

With System 6035

Description	Item No.	PU
6196 Bracket	00432-08	50

With System 6036

Adapter bracket for Zargen system

- Drawer slide can slide in or out to achieve different cabinet depth
- Extra long length
- Bracket can be stapled or screwed

Description	Item No.	PU
Adapter Bracket, LH	13946-17	500
Adapter Bracket, RH	13947-17	500

Note: Dimensions "A" and "B" vary according to slide used.

Drawer/door protector

Attaches to side of wooden pull-out. Designed for inset pull-out trays for frame or frameless cabinetry.

Description	Item No.	PU
Door/drawer Protector	13096-43	500

Zargen

Accessories

Pilaster mounting bracket

- Fits over 32mm line boring patterns
- Attaches to cabinet with Euro or wood screws
- Allows use of pilaster dowel on cabinet member for an adjustable roll out shelf.
- Allows roll out shelves to be adjustable in 32mm increments

Description	Item No.	PU
Pilaster Mounting Bracket	30912-12	200

Pilaster dowels

- Allows for construction of adjustable pull-outs with any Zargen Drawer Slide System when attached to cabinet member
- Dowel requires an 8mm x 5/8" deep hole
- Attaches with a #6 x 5/8" or #6 x 1/2" FHP screw

Description	Item No.	PU
Pilaster Dowel, black	00395-43	500

Zargen Router Bit

This bit is designed for grooving and beveling the drawer bottoms for the lipped version of the Zargen drawer slide. The bit comes only with a 1/2" shank.

Description	Item No.	PU
Zargen Router bit	00197-01	1

Roll-out tray bracket

- Allows 6036/6026 slide to be used as roll out tray
- Tray front is 59mm [2 5/16"]
- Bracket mounts to front of slide
- Polybag includes: 2 brackets, clips and screws
- Color: white

Description	Item No.	PU
Bracket -Polybag w/screws	30570-05	20
Bracket - Set	30561-15	300
#4 x 3/8", NI screw	00073-43	500

Note: Drawer bottom length is calculated by bottom panel length minus thickness of rollout tray front.
