

PRODUCT DATA SHEET

PRODUCT NAME:

PRO BOND SOLVENT / CLEANER / REDUCER

PRODUCT NUMBER:

WUR-SOLVENT

Typical Physical Properties:

Color:	Clear
Flammability:	Flammable Liquid/Vapor
Viscosity:	Water Like
Flash Point	- 20 °F
Shelf Life:	1 year from date of manufacture
Packaging:	Drums, Pails, Gallons

Qualifies for LEED®-NC & CI EQ Credit 4.4: laminating adhesives shall contain no urea formaldehyde resins

Properties:

- Fast Drying
- Non-Ozone Depleting
- Can be used to clean residue and thin adhesive

Application:

A clear solvent recommended for thinning and cleaning most extremely flammable contact adhesives. Can also be used for cleaning brushes, rollers, equipment parts and for flushing through spray lines and spray guns.

In thinning adhesive, add a small quantity of solvent while thoroughly mixing until the desired consistency is reached. Be careful not to add too much solvent and/or add solvent too fast.

In cleaning adhesive off substrates, DO NOT flood the area with solvent as it can work into seams and soften the adhesive and cause delaminating. Use a cloth that is saturated with solvent, but not dripping. Keep the solvent exposure to edges and seams of the lamination at a minimum to avoid softening the bond line

Application Precautions:

Liquid and vapor are extremely flammable.

Storage Conditions:

Rotate stock, use oldest first.

Keep covered to prevent solvent loss and contamination.

Do not freeze. Store product between 60 – 80 °F.

Do not store in direct sunlight.

Please Refer To The Safety Data Sheet For Further Information.
