

PRODUCT DATA SHEET

PRODUCT NAME:

PRO BOND NF SOLVENT / CLEANER / REDUCER

PRODUCT NUMBER:

WUR-SOLVENTNF

Typical Physical Properties:

| | |
|-------------|---------------------------------|
| Base: | Methylene Chloride |
| Color: | Water Clear |
| Viscosity: | Like Water |
| Shelf Life: | 1 year from date of manufacture |
| Packaging: | Drums, Pails |

Qualifies for LEED®-NC & CI EQ Credit 4.4: laminating adhesives shall contain no urea formaldehyde resins

Properties:

- OTC Compliant
- Fast Drying
- Non-Ozone Depleting

Application:

A clear non-flammable solvent recommended for thinning and cleaning most nonflammable adhesives. Can also be used for cleaning brushes, rollers, equipment parts and for flushing through spray lines and spray guns.

In thinning adhesive, add a small quantity of solvent while thoroughly mixing until the desired consistency is reached. Be careful not to add too much solvent and/or add solvent too fast.

In cleaning adhesive off substrates, DO NOT flood the area with solvent as it can work into seams and soften the adhesive and cause delaminating. Use a cloth that is saturated with solvent, but not dripping. Keep the solvent exposure to edges and seams of the lamination at a minimum to avoid softening the bond line.

Application Precautions:

Avoid application equipment containing aluminum or copper..

Storage Conditions:

Rotate stock, use oldest first.

1 year shelf life if container is unopened

Keep covered to prevent solvent loss and contamination.

Do not store in direct sunlight.

Do not freeze. Store product between 60 – 80°F.

If exposed to freezing temperatures, return product to room temperature.

Please Refer To The Safety Data Sheet For Further Information.
