

BALDWIN®

This is Archetypes

Archetypes are not reproductions or replicas.

This is home hardware that expresses the aesthetic of other times and places.

Inspired designs, brilliantly crafted, presented by Baldwin.

Crafted by hand,
as individual as you are

After 6,000 years, it's still the best way to cast bronze. The lost wax process, popularly known as precision casting, was used by the Egyptians to cast their Pharaoh's gold jewelry. Fine jewelers and sculptors still consider it the most exacting way to create intricate detailing that can't be produced by conventional manufacturing. That's why Baldwin chose the method to create the Archetypes Chateau and Craftsman Collections — available in seven luxuriously detailed finishes.

Villa

Recalling a Palladio pediment in its symmetry, line and form.

A rustic accent at home among the tile roofs
and weathered bricks of a Tuscan farm
village. Villa brings the earthy soul of the
Italian countryside to life.

Craftsman

A look of geometric simplicity accented by hand-hammered textures.

Raw. Real. Weathered by nature. Embodying simplicity and geometry. Craftsman recalls the tile, stonework and textiles of an American Arts & Crafts bungalow.

CUSTOM DESIGN

— SINCE 1946 —

BALDWIN®

AN AMERICAN DREAM

— A LEGACY OF CREATIVITY & INNOVATION —

BALDWIN'S FOUNDER, Severin Fayerman, survived WWII imprisonment and came to America penniless in 1945. He began Baldwin Hardware on January 2, 1946 and just ten years later had placements in the White House.

In 1956, Baldwin moved to Reading, Pennsylvania and became the first company in the world to forge solid brass door hardware. This innovation paved the way for custom hardware projects like one-of-a-kind rim locks for Jackie Kennedy and the Smithsonian commissioning Baldwin to make authentic reproductions.

Baldwin's legacy of custom projects and historical restorations is unsurpassed. Baldwin has the expertise and service needed for custom design, engineering and finishing projects.

With placements ranging from The Paca House to The Ritz-Carlton, Donald Trump to 50 Cent, Baldwin Hardware's heritage is rich and diverse.

1956
Baldwin's French knocker became the gift item of choice for Mamie Eisenhower

BALDWIN

QASR AL SARAB

— THE MOST EXCLUSIVE RESORT IN THE MIDDLE EAST —

LOCATED IN LEGENDARY Liwa Desert in the Empty Quarter, the largest uninterrupted sand desert in the world, Qasr Al Sarab Desert Resort by Anantara embraces the epic adventures of indigenous desert culture with renowned luxury.

PROJECT STORY:

From state-of-the-art design capability to technical experts on-site, even in far away places like the Liwa Desert, Baldwin has the tools needed to bring large scale projects like Qasr Al Sarab to fruition. When the owner decided to change the doors and locks from ANSI to European specifications, Baldwin didn't miss a step. When the project time lines accelerated, Baldwin kept up. When door specifications changed again, Baldwin attended marathon meetings with all the stakeholders to complete new division 8 door schedules. Baldwin is a true partner, making and keeping commitments to the most discerning owners, builders, architects, and designers around the world.

CUSTOM PRODUCT INCLUDED:

600mm & 2m pulls, edge pulls, Euro profile escutcheon trim, 5" backset lock trim, glass kits for bronze shower systems

Designer: Hirsch Bedner Associates (HBA)
Manufacturer: Baldwin Hardware
Distributor: Metallic Equipment Co
General Contractor: Tourism Development & Investment Company (TDIC)
Builder: Al Jaber Engineering and Contractors LLC (ALEC)
Operator: Anantara Resorts

BALDWIN

AUTHENTIC DESIGN

— AND THE TEAM THAT MAKES IT HAPPEN —

BALDWIN HAS A RICH HISTORY of making both historically accurate and truly original designs.

Our design team is deeply immersed in the study of architecture and design. They are current on the latest trends and observe the subtle style cues found in historical artifacts. Whether the focus is Colonial, Contemporary, or an eclectic mix from cultures around the world, Baldwin's designers have a deep respect for history and detail.

After research and reviewing design specifications of the project, come pencil sketches. This step in the design process is essential to narrow focus. From sketches to digital renderings, our designers use advanced technology to develop shape and form. Advanced 3-D printers then make the refinement of proportions and ergonomics an amazingly quick and efficient process.

We are committed to maintaining your design intent throughout the entire process. Upon approval of the final design, Baldwin's Industrial Design Team will produce working samples. Quotes and tooling are the final steps before manufacturing begins.

With outstanding educational pedigrees and more than 30 years of combined industrial design experience in hardware, house ware, and plumbing, Elliott and Yos have been the leading creative forces behind Baldwin's many product launches over the past decade.

BALDWIN, THE “FOUNDER OF LUXURY HARDWARE IN AMERICA,” is widely recognized for a comprehensive breadth of line and legacy of superior craftsmanship — having been awarded “Best Quality” thirteen years running by *Builder* magazine’s *Brand Use Study*.

With more than sixty years as the leader of upscale residential hardware, Baldwin now offers a Grade 1 solution for ANY commercial application.

- > ANSI/BHMA OPERATIONAL & SECURITY GRADE 1-RATED MORTISE SET
- > THROUGH-BOLTED ESCUTCHEONS & ROSES
- > 32 LEVER STYLES
- > 11 ESCUTCHEON TRIMS
- > 15 ROSES
- > 6 TURN PIECE & CYLINDER COLLAR STYLES
- > 22 BALDWIN FINISHES

Baldwin has established an industry leading through-bolt platform for entrance and sectional set products.

BENEFITS:

- > First true high-end decorative trim provider for “heavy-duty” door openings
- > Fully pre-assembled and box set platform for quick installations
- > Innovative attachment method for superior lever attachment
- > ANSI/BHMA A156.13 Certified trim and mortise lock system
- > Mix & match levers, trim, turn knobs and finish options for a unique look
- > Full line of “heavy-duty” Grade 1 mortise functions

Mortise Box Specification:

Lock Case:	Heavy Gauge Steel
Backset:	2 ½” and 2 ¾”
Dead bolt:	Brass – with Hardened Steel Inserts 1” Throw
Latch bolt:	Brass/Stainless – Anti Friction Type ¾” Throw
Armor Front:	1 ¼” x 8” Wrought brass, bronze, stainless steel
Strikes:	Flat standard, curved and long lip strikes available
UL:	UL- 3 hour Fire Rate
Other:	3.625” lever hub to cylinder center spacing
NOTE:	Designed with 8mm on the square broached levers to meet ANSI/BHMA A156.13 test standards
Power Pack:	Internal power pack prevents lever sag and provides quality feel

ESCUTCHEON SET

INCLUDES:

- > Inside & Outside Assemblies,
2 Levers & 2 Through-bolted Escutcheons
- > Turn Knob
- > Mortise Box
- > Cylinder (optional)

BALDWIN FINISHES

TIER 1

TIER 1

TIER 2

TIER 2

TIER 1 FINISHES:
STAINLESS STEEL HARDWARE ONLY

DISTRESSED FINISHES:

Not all hardware is available Distressed.
The rugged tumbling process would damage some components.
In cases where distressing is not possible,
the equivalent non-distressed finish will be provided.
412 = 112
402 = 102
452 = 152 Antique Nickel with Matte lacquer (151 has gloss lacquer)
Hardware NOT available distressed includes:
> All mortise locks, cylinders, latches, strikes

*HAND-RELIEVED FINISH VARIANCES:

(038, 050, 060, 112, 151, 412, 452)
Product finishes which are HAND RELIEVED may vary in luster, hue and appearance as a result of handcrafted variances in the final finishing step.

LOCK

ENVIRONMENTAL STEWARDSHIP — AND — SOCIAL RESPONSIBILITY

AT BALDWIN HARDWARE CORPORATION, we have made environmental responsibility a key consideration throughout our organization. We are committed to reducing the impact of our business on the environment by placing a priority on environmental, health, and safety standards in operations, and considering environmental factors in product and process design, and manufacturing methods.

Our manufacturing facility in Reading, PA produces product using raw material containing primarily recovered metals*. Product from our other manufacturing sources contains a similarly high level of recycled content. Baldwin recycles 100% of all brass scrap generated here in Reading, and also recycles 100% of all hazardous materials generated. Our electroplating lines utilize state of the art equipment to minimize raw material usage, and minimize waste generation. Water conservation practices result in a nearly 40% reduction in water usage with the attendant reduction in the treatment of rinse waters and generation of treatment by-products.

Baldwin luxury home hardware products can support the following aspects of green building:

LEED MR Credit 4.1: Recycled Content: 10% (post-consumer + 1/2 pre-consumer)

LEED MR Credit 4.1: Recycled Content: 20% (post-consumer + 1/2 pre-consumer)

NAHB Model Green Home Building Guidelines 2.4: Use Recycled Content Materials

Baldwin is a contributor to the U.S. Environmental Protection Agency's (EPA) National Partnership for Environmental Priorities, and was recognized by the Pennsylvania State Senate as “...a model which other businesses would do well to emulate. Berks County can certainly point with pride to this corporation that has dedicated itself to a pollution prevention/waste minimization program in order to improve our environment for future generations.”

We are committed to responsible stewardship of the resources used in the production of our products, and constantly strive to reduce the environmental impact of our products, our facilities and our processes. For over sixty years, Baldwin has been the luxury hardware choice for quality living —our continually improving environmental responsibility helps ensure the same quality of life for future generations.

*Recovered material content varies by product line but generally exceeds 95%.

Severin Fayerman

SEVERIN FAYERMAN IS the epitome of the American success story. This fourth generation expert in hand-crafted hardware came to the United States as a World War II survivor and in 1946 founded Baldwin Hardware Corporation. It demonstrates how optimism and commitment to excellence become the moving forces in a success that is truly inspiring. Severin continues to inspire us with his passion for life and the company he envisioned has grown to the status of world-class luxury brand. Fueled by its founder's dream and a pattern of innovation, Baldwin continues to set new standards for its industry. Baldwin Hardware salutes its founder and celebrates a personal and professional history that comprises Four Generations of Skill and Sixty Years of Innovation.

Pasadena too big
for your door?
6944.112

Make your own
(Pasadena) lever set!
with 5190 lever

MIX & MATCH:

With Baldwin, you can customize your door hardware. Mix any knob or lever with any rose (left). Even change out the knob or lever on any handleset or entryset to fit your taste. For example, if the Pasadena handleset is too large, just use the interior trim with levers to design your own front door entryset. With Baldwin, customization to fit your needs has always been core to who we are.

BALDWIN LIFETIME PVD FINISHES:

Baldwin was the first to introduce the Lifetime PVD finish to hardware. Others have followed, but not all Lifetime finishes are alike. The patented Baldwin Lifetime Finish uses a sophisticated formulation of layered nickel alloys to create crisp detailing, brilliantly pure color, and outstanding resistance to corrosion—particularly in salt air environments. And we back it up with an industry-best Lifetime Finish Warranty.

STEP 4: SELECT CONFIGURATION

72mm center to center = #7

85mm center to center = #8

When ordering, the door's configuration can be selected by changing the configuration number, listed after the Active Entry Function.

EXAMPLES:

MP001 . 102 . ACT7

Active Entry Function

Door Configuration #7.

To order Door Configuration #8, it would be "ACT8"

MP013 . 452 . PAT8

Active Entry Function

Door Configuration #8.

To order Door Configuration #7, it would be "PAT7"

DOOR CONFIGURATION #7

DOOR CONFIGURATION #8

ALTERNATIVE LEVERS OR KNOBS

European Mortise Trim ships with stock lever as shown unless Trim is ordered WITHOUT LEVERS.

For alternative levers or knobs, Add "x" to suffix to order Trim WITHOUT LEVERS and order levers SEPARATELY.

EXAMPLE:

MP001 . 102 . ACT7x
Springfield European Mortise Trim
102 (Oil Rubbed Bronze) Finish
Active Entry Function
Minus Lever
Door Configuration #7

SPLIT FINISHES

For split finish, order components separately. Trim, lever and kit will be priced separately.

THICK DOOR KITS

Baldwin European Mortise trims assume 1.75" door thickness. For thicker doors, please order a Thick Door kit according to the chart below.

Specify cylinder finish where noted.

Available cylinder finishes include ONLY 264 (Satin Chrome), 040 (Satin Brass) and 112 (Venetian Bronze).

ENVIRONMENTAL STEWARDSHIP — AND — SOCIAL RESPONSIBILITY

AT BALDWIN HARDWARE CORPORATION, we have made environmental responsibility a key consideration throughout our organization. We are committed to reducing the impact of our business on the environment by placing a priority on environmental, health, and safety standards in operations, and considering environmental factors in product and process design, and manufacturing methods.

Our manufacturing facility in Reading, PA produces product using raw material containing primarily recovered metals*. Product from our other manufacturing sources contains a similarly high level of recycled content. Baldwin recycles 100% of all brass scrap generated here in Reading, and also recycles 100% of all hazardous materials generated. Our electroplating lines utilize state of the art equipment to minimize raw material usage, and minimize waste generation. Water conservation practices result in a nearly 40% reduction in water usage with the attendant reduction in the treatment of rinse waters and generation of treatment by-products.

Baldwin luxury home hardware products can support the following aspects of green building:

LEED MR Credit 4.1: Recycled Content: 10% (post-consumer + 1/2 pre-consumer)

LEED MR Credit 4.1: Recycled Content: 20% (post-consumer + 1/2 pre-consumer)

NAHB Model Green Home Building Guidelines 2.4: Use Recycled Content Materials

Baldwin is a contributor to the U.S. Environmental Protection Agency's (EPA) National Partnership for Environmental Priorities, and was recognized by the Pennsylvania State Senate as "...a model which other businesses would do well to emulate. Berks County can certainly point with pride to this corporation that has dedicated itself to a pollution prevention/waste minimization program in order to improve our environment for future generations."

We are committed to responsible stewardship of the resources used in the production of our products, and constantly strive to reduce the environmental impact of our products, our facilities and our processes. For over sixty years, Baldwin has been the luxury hardware choice for quality living —our continually improving environmental responsibility helps ensure the same quality of life for future generations.

*Recovered material content varies by product line but generally exceeds 95%.

Control4™

KEYLESS ENTRY WITH
HOME CONNECT™

THE CONTROL4® SYSTEM MAKES your home your favorite place to be. Baldwin, America's premier maker of hand-crafted hardware since 1946, offers premium home automation security with Home Connect Technology.

Decorative hardware's only motorized deadbolt secures your home with amazing functionality. Integrated with the Control4® system, Home Connect enables the door lock to wirelessly communicate with other devices in the home.

Check lock status remotely and securely lock or unlock your home with a cell phone. Receive a text message when your child arrives home. Unlock your door, disarm the alarm, turn on the lights and your favorite music, all with the click of a button. Baldwin's keyless locks and Control4® integrate to meet the demanding needs of the modern family.

Innovative Security

- The ONLY motorized deadbolt—for remote locking
- Revolutionary tapered deadbolt design
- Full 128-Bit encryption security

Easy Integration

- Installs in minutes
- Replaces existing deadbolt
- 4 AA batteries (no hard wiring)
- ZigBee Pro wireless protocol

Control4® integration includes the following features:

Lock seamlessly integrates into the Control4 system

- Check status, lock/unlock any door using Control4 touch screen, remote control, or TV
- Set ties or events to automatically unlock/lock doors
- Use lock to automatically arm/disarm the alarm system

Fully customizable feature set

- Add/delete user codes
- Use lock to initiate customized scenes upon entrance & exit
- Lock/unlock door using a key FOB (sold separately)

Remote access features

- Check status of door lock using web enabled devices
- Lock/unlock door using a web enabled device
- Receive text/email notifications when lock is accessed

Contact your local Control4 Dealer/Distributor for details:

"With my Baldwin lock integrated into my Control4® system, when I arrive home, I'm greeted with the alarm disarming, front door unlocking, lights turning on, and my favorite Jazz."

Introducing Baldwin's keyless entry locks with Home Connect™ Technology—Enabling the door lock to wirelessly communicate with other devices in the home.

"When I'm away on a business trip, Baldwin's keyless lock enables me to monitor who enters my home. If my kids forget to lock the door, I can do it remotely with my phone. Amazing!"

BALDWIN®

KEYLESS ENTRY WITH
HOME CONNECT™
TECHNOLOGY

Baldwin, America's premier maker of hand-crafted hardware since 1946, offers premium home automation security with Home Connect™ Technology.

Decorative hardware's only motorized deadbolt secures your home with amazing functionality. Home Connect™ Technology enables the door lock to wirelessly communicate with other devices in the home.

Check lock status remotely and securely lock or unlock your home with a cell phone. Receive a text message when your child arrives home. Unlock your door, disarm the alarm, and turn on the lights, all with the click of a button. Baldwin's keyless locks integrate with home automation and security systems to meet the demanding needs of the modern family.

Innovative Security

- Motorized deadbolt— for true remote locking
- Revolutionary tapered deadbolt design
- Full 128-Bit encryption security

Easy Integration

- Installs in minutes
- Replaces existing deadbolt
- Uses 4 AA batteries (no hard wiring)
- Z-Wave wireless protocol

Home Connect™ integration delivers the following benefits:

Remote access advantages

- Lock/unlock doors via smart phone or internet connection while away
- Receive remote notification when door lock is accessed
- Check lock status remotely to see if doors are locked

Home control benefits

- Customize lighting scenes for convenience through lock keypad
- Initiate thermostat away mode when leaving home and locking door
- Save money while conserving energy usage through home/away modes via lock keypad

Security system enhancements

- Simplify security system control through lock keypad
- Control locks from security system to lock/unlock door while arming/disarming
- Single button security system arming via lock keypad
