DESCRIPTION

BEA's Panther push plate family consists of easy to mount, wireless, 4.75 inch round, 6 inch round and 4.75 inch square style push plates. These plates include an integrated 433 MHz wireless transmitter.

Panther plates are weather-resistant, NEMA 4 rated devices, which allows them to be installed in any pedestrian or industrial environment. Capable of surface mount installation, ideal for concrete walls and other applications where it may be difficult to mount a standard push plate.

FEATURES & BENEFITS

- 1/16 inch thick stainless steel for maximum durability

- Completely eliminates the need to run power and/or relay wires

- Concealed fasteners to minimize vandalism

- Available through geographically convenient distribution centers

- Built-in mounting box eliminates the need for additional hardware accessories

- The housing can be directly installed onto any flat surface using standard screws

Dimensions

EMR6 Series (Ø × D)	6.29 in × 1.45 in
EMR475 Series (Ø × D)	5.12 in × 1.42 in
EMS475 Series (W² × D)	5.12 in × 1.42 in
Mounting Options	Any Flat Surface

Transmitter Design

Transmitter Type	Encrypted Rolling Code
Transmitter Frequency	433 MHz
Power Source	12 V Type A23 (included)
Finish	16 Gauge, 304 2B Stainless Steel
Degree of Protection	NEMA 4
	FCC IC Part 15 Approved
